WOMAN KILLS SON WITH PISTOL SHE MISTOOK FOR TOY

Mother Takes Revolver From Drawer, Playfully Cries, "Hands Up," and Shoots 3-Year-Old Boy Through the Head; He Dies Before Physician Can Be Called.

SICK GRANDMOTHER WITNESSES TRAGEDY

Lad Was His Slayer's Inseparable Companion and She Is Crazed With Grief—Unavoidable Accident Is Verdict of Jury.

Pointing what she supposed to be a toy pistol at Hubert Skwor, her 3-year-old son, Mrs. Lily E. Skwor called playfully "Hands up," and pulled the trigger.

The boy fell on the floor, wounded through the head, and was dead 10 minutes later, while the mother and the boy's invalid grandmother, who had witnessed the tragedy, were crazed with grief.

The weapon which the mother mistook for a toy, was a 32-calibre revolver. The scene of the fatality was the home of the boy's grandparents in High Ridge, Jefferson County. The funeral was held Thursday from an undertaking establishment in Fenton, St. Louis County.

"Unavoidable accident" was the verdict rendered in the Coroner's inquest, held Tuesday, in Pevely, Jefferson County.

Was Only Child.

Little Hubert was the only child of Frank Skwor Jr., a railway mail clerk, and his wife. The parents and the boy had been visiting for a short time at the home of Skwor's father, Frank Skwor, near High Ridge. Mrs. Elisabeth Skwor, the boy's grandmother, who is 65 years old, had been confined to her bed by illness.

Monday morning the boy and his mother, who were almost inseparable, were in the grandmother's room. The wood fire needed replenishing, and the mother started to go out and bring in some sticks from the woodpile. Little Hubert begged to be allowed to go along.

Not wishing to bundle up the child, the mother said to him, "No, you stay in with grandma. Take your pistol, and show the ladies how you can shoot."

As she spoke, the mother stepped to the bureau, where his toy pistol had been, and picked up what, at a glance, she supposed to be the toy.

The toy pistol, which shoots only caps, had a barrel eight inches long, and was of unusual size and weight, made much like a real weapon. It was for that reason that Mrs. Skwor did not realize that what she had picked up was not the toy, but the revolver kept in the house for protection by her father-in-law.

Thought It a Toy.

As nearly as the heart-broken mother has been able to explain, she had only a sidelong view of the weapon, and it did not occur to her until too late that she might have made a mistake.

As she heard the loud report of the revolver and saw the boy fall, Mrs. Skwor cried, "My God! I've killed my little boy!"

The grandmother, who had been sitting up in bed, fell back in a swoon. The boy's father, entering a few minutes later, found that the child had been wounded in the upper lip and the tongue, and that the bullet had passed through the back of his head.

He telephoned to Fenton for a physician, but before he could establish a telephone connection the boy was dead.

"I'm paying twice as much for my clothes as I ought to pay," said the man with the stogie.

"Uh-huh," replied the one with the clear Havana.

"And my wife pays $9.98 for a dress pattern that she ought to get for $3.37."

"Quite true."

"And a pair of knit gloves for my boy cost 50 cents, though it costs only 18 cents to make them."

"Yes, I know."

"Then, why shouldn't you and I and all of us demand that the tariff on wool be reduced?"

"Let George do it. I'm in the woolen business."

Official forecast: Partly cloudy weather tonight and Friday; not much change in temperature. Lowest temperature tonight will be about 28 degrees above zero.

DANCER WHOSE SWORD NEARLY KILLED A MAN

MICHAEL MORDKIN.

MAN IN AUDIENCE FATALLY HURT BY DANCER'S SWORD

Blade Leaves Hilt and Penetrates His Skull in Pavlowa-Mordkin Performance.

Special to the Post-Dispatch.

HAMILTON, Ont., Jan. 19.—One of the strangest accidents in the history of the stage happened at the Grand Opera House last night. Mikail Mordkin, Mlle. Pavlowa and the imperial Russian ballet were performing before a crowded house. Mordkin was wielding his sword in the Dance of the Arabian Nights.

Suddenly the blade of the sword flew from the hilt, which remained in the dancer's hand. The flashing steel flew over the footlights and pierced the brain of a man sitting eight rows from the front.

The injured man was Robert Shiverick, an American and Cornell University man. He is assistant manager of the Thomas C. Watkins Co., the largest dry goods firm in the city. He was soon to go to St. Louis to accept a responsible position with a large store.

When Mordkin, as he made a sweep with his sword, saw the blade leave the hilt and cut through the air, he staggered. The blade shot over the heads of seven rows of men and women and then struck downward.

Although the blade struck in his skull, Shiverick did not lose consciousness. With a groan he arose and staggered, to the foye holding his hands to his head. Near the entrance he collapsed. The injured man was rushed to St. Joseph's Hospital. There it was found he had little chance for his recovery.

As soon as Shiverick was out of the theater the performance continued and few in the audience knew that he was mortally hurt. The police thought of arresting Mordkin pending the result of Shiverick's injuries. It was clearly an accident, however, and they decided not to detain him. He will be compelled to furnish bonds today to return here if Shiverick dies.

Victim of Mordkin's Sword About to Take Position in St. Louis.

Robert Shiverick, who was wounded in the accident in Hamilton, was to come to St. Louis early in February as private secretary for Melville L. Wilkinson, new president of the Scruggs, Vandervoort & Barney Dry Goods Co. Wilkinson said Thursday that he had received a telegram stating there was some hope of the young man's recovery.

Shiverick was 22 years old, unmarried, and lived until recently in Omaha. Wilkinson knew him in Hamilton and recently engaged him for work here. He was delayed by work in the Watkins establishment there.

Mikail Mordkin was first seen in St. Louis at the Odeon Nov. 7, in the Arabian Nights ballet, "The Legend of Azyiade," which he was dancing at the time last night's accident happened. Later he was seen Dec. 10. He and Mlle. Anna Pavlowa, supported by the imperial Russian ballet and orchestra, are to return for another appearance at the Odeon Feb. 1.

SHIP POSTS GAMBLERS' PICTURES

Lusitania's Passengers Thus Warned Against Sharpers.

NEW YORK, Jan. 19.—For years, the steamship companies, acting in co-operation with American, British and continental police, have striven unsuccessfully to protect their cabin passengers from card sharks.

Below the customary warning to passengers are posted in the smoking room on the Lusitania on her present trip, a row of portraits of well-known sharks who travel back and forth regularly.

WASHINGTON, Jan. 19.—The Government has won another step in its prosecution of the so-called Bathtub Trust, the United States Circuit Court having decided that civil proceedings for dissolution and criminal proceedings against its members may go on simultaneously.

GIRLS PULL HAIR, TEAR SWEATERS, IN CLASS FIGHT

Junior Climbs Tree to Unfurl Flag; Seniors Clamber Over Dormitory Roof.

PENNANT ON COW'S TAIL

Others Are Hung on Automobile and Forest Park Students Continue the Contest.

Young women students at Forest Park University climbed trees, clambered over steep roofs and did other unexpected things in a class fight between 32 juniors and 19 seniors Thursday.

There were scrimmages in which sweaters were torn and hair was disarranged, but the combatants obeyed the injunction of Mrs. Anna Sneed Cairns, the principal, that they must not forget they were ladies. In consequence no one was hurt and hatpins were not used as weapons.

Miss Aileen Ford, leader of the junior forces, distinguished herself by climbing to the top of a 40-foot oak tree in front of the university and fixing her class colors to the topmost branch.

Principal Permits Rush.

When the seniors returned from their usual morning walk through Forest Park, at 8:30 a. m., they saw four yellow and white pennants, the colors of the junior class, floating from the highest peaks of the gabled dormitory roof.

The seniors were about to make a rush for the flags when Mrs. Cairns summoned them to their classes. After an hour of recitation, she announced that if the girls would promise to be ladylike, she would permit them to have a class fight. There was a chorus of feminine cheers, and the fight began under the watchful eye of the principal.

The seniors, led by Miss Lorena Beggemann, hurried upstairs, but when they tried to get to the roof they found every avenue guarded by watchful juniors. It was a time for strategy.

"All right, girls," said Miss Beggemann, "then we'll go down to the campus and tear down that flag in the tree."

The seniors made a feint to attack the tree and when they were sure that all of the dormitory guards had been withdrawn, Miss Beggemann and three of her classmates stole through the main building and crawled out on the roof through windows.

Along the tops the gables are flat walks only three feet wide. The four seniors crawled along these and tore down and tore up the junior class flags. Then then placed their own flag on one of the dormer windows and descended triumphant.

But Miss Aileen Ford was not idle. She also led a party to the roof. They removed the senior flag, but it slipped out of their hands and was caught in the gutter where it remained and fluttered defiance to the juniors in the campus below.

Marguerite Keith, Nell Aquart and Mary Ella Gibson for the seniors made futile attempts to climb the tree. They were repulsed in order by Belle Brickey, Beulah Anderson and Marguerite Goetzman, guards, stationed in the tree.

The juniors on the ground produced another flag. The seniors pounced upon them and tore it up. The juniors did the same when the seniors flauntingly waved a bright new red and white ensign.

Climbs Tree Despite Skirts.

At 10:30 a. m. Miss Ford did her great tree-climbing act. Though hampered by skirts, she showed great agility in climbing the giant oak and when she had planted her class colors there was a chorus of cheers from her followers.

The juniors induced the driver of a passing automobile to stop while they decorated his machine with yellow and white bunting. That evened up the fight again. The seniors had two flags floating, while the juniors had one flag up and one automobile decorated. Here hostilities were suspended, but there were threats that the fight would be resumed in the afternoon.

The seniors Wednesday captured a junior pennant and tied it to a cow's tail in token of their conviction that the juniors are always behind. Miss Ford and others of the junior class chased the cow over a large section of St. Louis County before they recovered the colors.

Hiccoughs Prove Fatal.

SALINA, Kan., Jan. 19.—Hiccoughs caused the death of John Zeers, 60 years old, at the county farm here yesterday. He became afflicted Monday while coming here on a train from Oklahoma City. He coughed incessantly until he died.

SAYS HIS RIVAL, SCHOPP, HELPED WIFE COOK MEALS

William Stamm in Alienation Suit Declares Youth Was Around at All Hours.

REMAINED UNTIL 2 A. M.

Husband Asserts Mother-in-Law Put Him Out; Defendant Persuaded Wife to Stay.

William Stamm, man-milliner, tells in depositions filed Thursday in Judge Shields' court his story of the acquaintance of his wife, Madeline Stamm, and Conrad Schopp of 3832 Washington avenue, young son of the late apple king. Mrs. Stamm is the daughter of Mrs. Charles Krone, divorced wife of a State Senator.

Stamm is suing Schopp for $15,000 damages, charging alienation of Mrs. Stamm's affections. The depositions were taken at the instance of Schopp's lawyer in the office of Ben H. Charles, acting as special commissioner.

Stamm was married Dec. 20, 1909. Schopp's attentions to Mrs. Stamm, the husband testified, began less than a week afterward.

Schopp, he said, called at the home of Mrs. Krone, 3816 Juniata street, where the Stamms were living, first as his guest, then without invitation from him.

Helped to Get Supper.

"While I was at my millinery establishment," Stamm testified, "Schopp would be at home, helping Mrs. Stamm get supper. In the evening he would come and stay so late that I would go to bed, and my wife would sit up in the parlor with him until 2 or 3 a. m. When I would leave her in charge of the store, he would call there."

Schopp's lawyer asked Stamm whether he suspected Schopp's motive in calling at that time, and he said he did not. He first became suspicious, he said, when Mrs. Krone ordered him out of the house for non-payment of board, and Schopp and Mrs. Krone persuaded Mrs. Stamm, apparently without much difficulty, not to accompany him.

Says He Owed Everyone.

Mrs. Krone brought up the question of Stamm's debts. "I owed everybody," the young man admitted. Pressed for details, he said that he owed his stepfather-in-law, Senator Krone, $1170, which he had borrowed to settle bills due wholesale millinery concerns.

"When Krone and his wife separated," Stamm said, "he gave her my note as part of the settlement, and she kept after me for the money. She made it very unpleasant for me."

Stamm was sharply questioned about the reasons for his marriage. He denied that he had ever said he married in order to get rid of another woman who had made claims on him. He also denied that he was in the habit of kissing a third young woman, a business acquaintance.

He admitted having invited Schopp to a New Years Eve dinner with himself and his bride at the Liederkranz Club, Dec. 31, 1909. He also told of a dinner at McTague's at which Schopp entertained him and his wife.

Relatives Saw Pair at Hotel.

George Johnson, Schopp's lawyer, demanded that Stamm explain the statement, made in his suit, that Schopp was causing Mrs. Stamm to live at the American Hotel. Stamm said a musician named Bauer, a relative of his, employed in the rathskeller, had told him of seeing Schopp and Mrs. Stamm there and in the corridor of the hotel.

Stamm said he separated from his wife last May, when his mother-in-law ordered him out of the Juniata street house. He said that during the summer Schopp was in Europe, and that Mrs. Stamm lived at Bishop Robertson Hall, on Washington boulevard. After Schopp's return, Stamm said, she moved to 525 North Newstead avenue. Stamm's explanation for this was that Schopp wanted her to be where he would be allowed to call on her.

He also told of what he had heard regarding Schopp's calls at the home of an uncle and aunt of Mrs. Stamm on North Twentieth street, with whom she lived for a time after the separation. He would call in an automobile at all hours, Stamm said, causing much comment in the vicinity.

Stamm was asked whether he was subject to hallucinations, and he said he thought he was. The only hallucination which he could definitely recall was a vision of the spirit of his mother, who is dead.

TALKING IN HER SLEEP, GIRL TOLD HER SECRET MARRIAGE

Sister Heard Her, and She Confessed That She Had Been Wedded.

ELIZABETH, N. J., Jan. 19.—The habit of talking in her sleep revealed the secret marriage of Miss Helen Greves of Cranford and David A. Christian of 48 Rahway avenue, this city. As she slumbered last night she muttered the name "David," then said:

"We won't tell for a year; not until we have enough 'sand' to go housekeeping."

Her sister, Elsie, slept with her, but said nothing until this morning at the breakfast table, when she whispered something in her mother's ear, with the result that Helen finally admitted that she had been a bride since Oct. 26.

CHARTER VOTE ON CARS IS 38 FOR, 45 AGAINST

46 Canvassed by Post-Dispatch Reporters at Rush Hour Undecided or Non-Committal.

Post-Dispatch reporters who took a straw vote on four street cars at the rush hour Wednesday evening found that 38 men passengers favored the new charter, 45 opposed it and 46 were undecided or noncommital.

On Hodiamont car 652, which reached Seventh and Locust streets, westbound, at 5:35 p. m. Wednesday, the balloting showed:

For the charter, 14.
Against the charter, 11.
Not voting, 9.

On this car the nine men who refused to vote would not state their reason for declining.

The balloting on Maryland car 308, westbound, at Broadway and Olive street, at 5:35 p. m., gave this result:

For the charter, 7.
Against the charter, 9.
Not voting, 15.

Ten of those who would not vote said they had not made up their minds.

On Broadway car 2336, southbound, at St. Charles street, at 5:50 p. m., the vote stood:

For the charter, 8.
Against the charter, 13.
Not voting, 8.

The non-voters said they did not care to express their opinions at this time.

The result on University car 356, westbound, at Broadway and Olive street, at 4:55 p. m., was:

For the charter, 9.
Against the charter, 12.
Not voting, 14.

ACTRESS KILLS HERSELF BY TAKING POISON IN HOTEL

Anna Lynch, Known as Humphrey, Dies Because Man Refused to Marry Her.

Anna Lynch, a showgirl, known on the stage as Anna Humphrey, killed herself at the Regent Hotel, Fourteenth and Chestnut streets, Thursday afternoon by swallowing a poison.

Her reason, according to Morris Weil of 1139 South Seventh street, was that Weil had refused her repeated requests that he marry her.

Weil, who is a member of the Gaiety Theater orchestra, told policeman that when he called at her room at 11 a. m. Thursday, Miss Lynch asked him, as she had often done before, to marry her.

He told her, as he was accustomed to do, that he did not intend to marry anyone.

"She told me to come back at 2 o'clock," he said. "You'll be sorry for this."

Weil arrived at the morgue soon after the body reached there, and made manifestations of grief. He said Miss Lynch appeared here lately at the American Theater in the chorus of "Miss Nobody from Starland."

COHEN REPLEVINS $100 IN GEMS HE USED TO WIN LOVE

Mrs. Adler, Erstwhile Flame, in Court to Fight Case and Blames Mrs. Zarwitz.

Jacob Cohen's diamonds are not nearly as big or brilliant as Charles Drummond's, but in their own humble fashion they have been quite as successful for wooing purposes. Cohen told a Post-Dispatch reporter that thus far he had been married only twice. Mrs. Rose Adler, 1104 North High street, who now has the Cohen diamonds, says that Cohen told her that he had been married three times and that each time it had cost him $300 to get out of it.

Cohen says that when he gave the diamonds to Mrs. Adler it was in the same fashion that he would put them in a safety deposit vault. Mrs. Adler says that when Cohen left the gems with her the only key he asked and the only one she gave him was the key to her heart.

Replevins Diamonds.

Cohen replevined the diamonds in the court of Justice of the Peace Luce. Mrs. Adler says she will resist the suit to take the diamonds away from her as she has learned, she says, that Cohen's fancy has turned to another upon whom he desires to bestow them. Cohen denies this.

The Cohen diamonds are four, set in a ring, a bracelet, a locket and a scarf pin. The highest estimate that Cohen would place on the diamonds together with their accompanying gold and a silver purse and a gold hat pin thrown in, is $100.

Mrs. Adler had the diamonds three days when Cohen wanted them back.

"It was Essie Zarwitz," said Mrs. Adler, "who put Cohen up to get those diamonds away from me and give them to her."

"Why," said Mrs. Zarwitz, "it was no such thing. The only interest I have in the case is in not wishing to see a well-meaning man like Cohen get stung by a woman that already has a husband."

Mrs. Zarwitz a Witness.

Mrs. Zarwitz was one of the numerous crowd of young women witnesses who had come to Justice Luce's court Thursday to tell what they knew about the Cohen diamonds.

"I told him I could not marry him yet, because I'm not a widow," said Mrs. Adler. "I haven't seen my husband in a year. I told Cohen that I would get a divorce and marry him."

Mrs. Adler got a continuation of the trial of the case. Cohen seemed to be greatly disappointed. Cohen is a painter, 35 years old. Mrs. Adler is 28 years old.

8,000,000 Young Americans Not in Sunday School.

CHICAGO, Jan. 19.—There are 8,000,000 young people between the age of 5 and 18 years in the United States who are not Sunday school pupils.

This is the report made by the Rev. David G. Downey, corresponding secretary to the Board of Sunday Schools of the Methodist Episcopal Church, which has completed a session at the national headquarters here.

NEW CONGRESSMEN FAVOR PROMPT CUT IN PRESENT TARIFF

Members-Elect Declare That November Voting Showed an Unmistakable Demand for an Immediate Revision of the Schedules Downward—Special Session Is Urged.

MAYORS JOIN IN GENERAL PROTEST AGAINST DELAY

Democrats, Republicans and Independents Alike Urge Upon President Taft the Early Assembling of Congress to Repeal Payne-Aldrich Law's Worst Features.

Shall tariff reform be postponed until 1912?
Shall reduction of the cost of living be postponed until 1912?

The nation-wide demand for immediate relief of the empty market basket, through a special session of the newly elected Congress to begin revision of the tariff on necessaries of life, as voiced in the Post-Dispatch and the New York World Wednesday, has found quick response among Democratic leaders.

Gov. John A. Dix of New York, beleaguered as he was in the Senatorial battle, found time to telegraph his interpretation of Democratic duty, as follows:

ALBANY, N. Y., Jan. 19.—To the Editor of the Post-Dispatch: At as early a time as possible the extortions and abuses of the Payne-Aldrich tariff should be remedied and burdensome taxes removed from the necessaries of life. Who can doubt this was the meaning of last fall's election of a Democratic House of Representatives. JOHN A. DIX.

Confer on the Tariff Program.

In Washington there was a rapid clearing of decks for action at the Democratic caucus, called weeks ago by Representative Champ Clark to meet Thursday night to select a tentative Ways and Means Committee of the new Democratic House.

At the call of Representative-elect John Alden Thayer of Worcester, Mass., as many of the new Democratic members as wish to confer in advance of a general caucus was set for Thursday afternoon in Washington at the New Willard Hotel to discuss the tariff program.

Thayer issued privately a call for this conference a few days after the Post-Dispatch and New York World began their canvass of public opinion throughout the United States. He believes that the men who come to Washington fresh from their fights to unseat stand-pat Republican members necessarily have a clearer idea of the reasons for the landslide which converted a Republican into a Democratic House of Representatives and reduced the Republican senatorial majority to eight.

The Post-Dispatch and New York World published yesterday Thayer's declaration in favor of the special session for immediate tariff revision. Thayer has received more than 25 answers to his invitation, and only two of the members-elect responding failed to approve his plan for an understanding among the Democratic members before they go into the general Democratic caucus.

From among these members-elect the Post-Dispatch and World has received expressions of opinion so far all favorable to the calling of a special session, and all from Democrats who defeated Republican stand-patters at the polls.

New Congressmen United in Their Advocacy of a Special Session

HENRY GEORGE JR., Seventeenth New York District, who succeeds Congressman William S. Bennet, wrote: I believe in the earliest possible session of Congress to reduce the tariff and the cost of living. In this respect the British people have a far more responsive Government. Parliament was dissolved, a general election was held and a new parliament will be held—all within two months. It is preposterous to think that the Sixty-second Congress, elected to reduce the tariff, should not get at that work for more than a year and a month after its election.

JEFFERSON M. LEVY, Thirteenth New York, who succeeds Congressman Herbert Parsons: In my opinion a special session of the newly elected Congress should be held in March for the purpose of reducing the tariff and the present high cost of living. This is an issue on which the people have spoken in no uncertain terms, and I think their wishes should be carried out at the earliest possible moment.

D. J. McGILLICUDDY, Second Maine, who succeeds Congressman John P. Swasey: My answer is yes. If legislation is to give the people relief from existing burdens, why should it be deferred.

EDWIN F. SWEET, Fifth Michigan, who succeeds Congressman Gerritt J. Diekeman: Yes, sir; I favor a special session at as early a date as possible. American consumers plainly said at the November elections that they want a downward revision of tariff rates on the necessaries of life.

GEORGE WHITE, Fifteenth Ohio, who succeeds Congressman James Joyce: In the light of the November returns, I believe that President Taft should disregard party politics and should respond to the will of the people as expressed at the polls by calling a special session in March.

JAMES S. DAVENPORT, Third Oklahoma, who succeeds C. E. Creager: I favor an immediate revision of the present tariff law, schedule by schedule, downward. I believe the people should get the benefit of the revision at the earliest possible moment.

DAVID J. LEWIS, Sixth Maryland, who succeeds Representative George A. Pearce: In my judgment the calling of a special session would be the prompt and prudent course to pursue. If uncertainty as to the tariff legislation has the effect ascribed to it in the business world, the sooner inevitable adjustments come the better.

SENATOR CULBERSON of Texas stands with his colleague, Senator Bailey, in favoring revision of the tariff at the earliest possible moment. Replying to the Post-Dispatch and World's query, Senator Culberson wrote: I favor an extra session of Congress in March or April to reform the tariff and to reduce the cost of living, as demanded by the people at the election in November.

SENATOR ROBERT L. OWEN of Oklahoma answered the question as follows: I do not think it right that a Congress which has been repudiated should control the affairs of the United States to July 1, 1912. The new Congress ought to have met the first of December, 1910, and this present Congress should pass an act changing the date of

which Congress meets to the first of December following the election.

SUPREME COURT JUSTICE JAMES W. GERARD, possible compromise candidate for United States Senator from New York, answers in the following note: The cost of living problem cannot be attacked too quickly. I am in favor of a special session of the new Congress.

MAYORS, IN GENERAL, FAVOR EXTRA SESSION

Mayors in America are popularly supposed to be close to the people without reference to their politics, the executives of cities and towns were addressed with the extra-session query. To date more than 75 per cent of their replies have been in favor of the special session.

Mayors' opinions now in hand would fill many columns of the Post-Dispatch. For a beginning here are a few representative replies from all sections of the country.

ATLANTA.
To the Editor of the Post-Dispatch.
I believe it the duty of President Taft to convene the new Congress at the earliest date, so a prompt tariff reform may be effected. The verdict of the people in the November elections cannot be misinterpretd. The people are dissatisfied with the present tariff. The tariff schedule has played into the hands of the illegal corporations, resulting in an increase in the cost of living. The people have demanded a revision downward, and they are entitled to it. There can be no excuse for deferring lower duties.

An extra session would entail considerable expense, but, however, it cannot be compared to the heavy burdens the tariff now places upon our people.

COURTLAND S. WINN, Mayor.

OMAHA.
To the Editor of the Post-Dispatch.
I am in favor of calling together the Congress immediately after March to reduce the tariff, especially on articles that affect the cost of living. There is no reason for delay, the people have spoken and expressed themselves so at the last election. We don't want any side-stepping.

JAS. C. DAHLEN, Mayor.

SACRAMENTO.
To the Editor of the Post-Dispatch.
I favor a special session of the newly elected Congress in March. The tariff should be reformed as soon as possible.

M. R. BEARD, Mayor.

TERRE HAUTE.
To the Editor of the Post-Dispatch.
The late campaign was fought on the question of tariff revision. The Republicans insisted that the Aldrich bill is the best tariff measure ever drawn. The Democrats pronounced it the most vicious, and insisted that there should be an immediate reform of the tariff, so the cost of living might be lowered. Upon that proposition we won. It is now incumbent upon us to keep faith. This can be done most advantageously at a special session.

LOUIS GERHARDT,
Mayor, Terre Haute, Ind.

WILMINGTON.
To the Editor of the Post-Dispatch.
Mayor Spraunce directs me to inform you that he certainly is in favor of this movement.

CHARLES K. LLOYD,
Secretary, Wilmington, Del.

OKLAHOMA CITY.
To the Editor of the Post-Dispatch.
I believe the November elections should by all means be respected. It is Congress' duty to hold a special session and reform the tariff, and the sooner this is done and the cost of living reduced, the sooner will the confidence of the masses be restored. If this work is delayed, it means that practically nothing will be accomplished during the next two years. By all means have a special session in March, 1911.

DAN V. LACKEY,
Mayor, Oklahoma City.

DAYTON.
To the Editor of the Post-Dispatch.
I believe that the newly elected Congress should assemble in March and enact legislation that the 1910 election indicated the people desired.

EDWARD E. BURKHARDT,
Mayor, Dayton, O.

WATERLOO.
To the Editor of the Post-Dispatch.
As a Republican, I favor a special session to reduce the tariff on the necessaries of life so as to cheapen the cost of living.

J. R. RECTOR,
Mayor, Waterloo, Io.

DULUTH.
To the Editor of the Post-Dispatch.
I don't believe Congress could be better employed than to meet in special session and remedy the tariff as soon as possible.

M. B. CULLUM,
Mayor Duluth, Minn.

McALESTER.
To the Editor of the Post-Dispatch.
The commissioners of McAlester favor the convening of Congress in special session, as suggested.

PETER HANRATY, Mayor.
H. F. SCHRIENER, Commissioner of Public Works.
WALLACE BOND, Commissioner of Finance, McAlester, Okla.

PENSACOLA.
To the Editor of the Post-Dispatch.
I favor a special session of Congress in March. The result of the November election shows plainly that the people demand it. This question affects the whole country, and should not be deferred until the session in December.

FRANK REILLY,
Mayor, Pensacola, Fla.

SOUTH BEND.
To the Editor of the Post-Dispatch.
My honest belief is that if Congress adjourns after March 4 until December, it will be the best thing that could happen for the good of the country. Give us a few months rest, and, in my opinion, the people will be more benefited than with all this agitation and no results.

CHARLES L. GOETZ,
Mayor, South Bend, Ind.

SALEM.
To the Editor of the Post-Dispatch.
I think it would be unwise to make any such move as an extra session. Business is in such a state that the country could ill afford to do any tariff tinkering at this time. I believe the tariff is a question that should be settled out of politics and a tariff commission, in my opinion, would be the proper solution.

RUFUS D. ADAMS,
Mayor, Salem, Mass.

PRESS SAYS PEOPLE DEMAND A REVISION

HERE is the second installment of editorial opinion, coming from widely separated parts of the United States, and representing many shades of belief. Editors of Republican, Democratic and independent papers alike continue to express to the Post-Dispatch and World divergent views on the advisability of the special session, but, excepting the Republican party organs, the press is largely in favor of prompt revision of the most iniquitous schedules of the Payne-Aldrich tariff.

REPUBLICAN, BUT FOR REVISION.
To the Editor of the Post-Dispatch.
I was a candidate for Governor at the direct primary in September last and made a campaign of the whole State and received 7000 votes for the nomination on a platform of tariff revision. The Republican nominee was defeated by a Democrat who stood for tariff revision. My county, one of the strongest Republican counties in the State, could not be kept in the Republican column.

I believe it is the first duty of President Taft to call the special session of Congress and give the people lower duties and meet the issue squarely in accordance with the expressed demand of the people. The State of Oregon will not support a candidate for President who does not favor destroying every vestige of trust graft that has its foundation in protective duties.

COL. E. HOFER,
Editor Daily Capital-Journal, Salem, Ore. (Independent.)

BELIEVES PEOPLE DESIRE IT.
To the Editor of the Post-Dispatch.
The Georgian is of the belief that the people desire a special sesion of Congress to reform the tariff.

EDWIN CAMP,
Managing Editor, Atlanta, Ga. (Democratic).

NO VALID REASON AGAINST IT.
To the Editor of the Post-Dispatch.
I say, with al the emphasis I can give, I do favor a special session of the newly-elected Congress in March to reform the tariff and reduce the cost of living. There is no valid reason why a Congress elected in September, October and November, should not meet on March 4 following.

B. F. MOYERS,
Editor Star-Independent, Harrisburg, Pa. (Independent).

SPEAKS FOR OKLAHOMA.
To the Editor of the Post-Dispatch.
The Leader voices the sentiments of the people of Oklahoma in calling for a special session of the newly elected Congress to reform the tariff and reduce the cost of living.

L. G. NIBLACK,
President and General Manager, Guthrie (Ok.), (Democratic.)

GIVE COUNTRY A REST.
To the Editor of the Post-Dispatch.
The Times-Democrat does not favor a special session of the newly elected Congress in March. The country, as a whole, has had too much legislation—state and national. It is by no means certain that a special session of Congress would so reform the tariff as to materially reduce the cost of living.

We believe that under existing conditions respite from a special session and the agitation that would naturally accompany any effort to reform the tariff, would be best for the country.

THE TIMES-DEMOCRAT,
D. D. Moore, Editor and Manager, New Orleans (Ind. Dem.).

CALIFORNIA FOR THE SESSION.
To the Editor of the Post-Dispatch.
I favor the special session to bring about immediate remedy of the tariff evil.

KENNAH P. CAMPBELL,
Editor Sacramento Star (Independent). dent.)

ACT NOW, SAYS PATRIOT.
To the Editor of the Post-Dispatch.
Not only do I favor a special session of the newly elected Congress to reform the tariff and reduce the cost of living, but I believe that the great body of voters would be better satisfied if Congress would at its present session, concentrate endeavors on correcting living cost evils, which are of greater concern to the country than the protracted contest over Lorimer, debate on rules, the canal fortification and the spoliation claims that have hung in the balance for a century. However, if President Taft calls a special session, he or Congress should provide experts to present evidence on the tariff question.

EDWARD J. GALLAGHER,
Editor Patriot (Dem.), Concord, N. H.

FEARS DEADLOCK AS RESULT.
To the Editor of the Post-Dispatch.
The Press does not favor a special session of Congress to reform the tariff. It would keep the country in a turmoil all summer, and with a newly elected Democratic House feeling its oats and flushed with victory, would probably result in a partisan deadlock between the House on one side and the Senate and President on the other, with no advantage to the consumer.

EDMUND W. BOOTH,
Editor and Manager, Grand Rapids, Mich. (Independent).

SAYS GLOVERS STAND PAT.
To the Editor of the Post-Dispatch.
The people of the cities of Gloversville and Johnstown, composing the glove center of the country, would not favor a special session of Congress to tinker with the tariff or consider the high cost of living. The tariff is a delicate subject to the people of this community, for it has to do with the fortunes of nine out of ten residents of the two cities, and while it is far from satisfactory from the viewpoint of the American glove manufacturer, for the reason that he wants the same duty on ladies gloves as is exacted on men's gloves—rather than run the chances of a reduction of the duty on men's foreign-made gloves, the local maker is content to leave well enough alone.

FRED B. KING,
Editor the Morning Herald (Ind. Rep.), Gloversville, N. Y.

(Note—The Mayors of both these cities favor a special session and prompt revision.)

Ten More Good Reasons for an Extra Session of Congress to Revise Tariff

FOLLOWING are ten more reasons given why the Payne-Aldrich tariff should be revised:

1. Because the cotton cloth schedule (I) of the Payne-Aldrich tariff matches schedule K (wool and woolens) as an instrument of robbery and oppression of the consumer. It has made cotton fabrics scarce and dear. In this country, above all others, cotton goods should be abundant and cheap. We raise the raw material, and the cost of manufacture, for the unit of production, is, generally, actually lower than in any other country.

2. Because this outrageous condition, in regard to the chief article of wear of the American people, is the result of the long established corrupt political influence of a ring of "protected" mill-owners, now enormously rich corporations, paying dividends as high as 50 per cent a year on largely watered stock.

3. Because these men, represented by one or two New England ring-leaders, pretended before the Ways and Means Committee of the House that they did not want any increases in the cotton goods schedule of the tariff. Then, when the Payne-Aldrich bill got into the Senate and the Conference Committee of the two House ringleaders had inserted enormous increases in lines of fabric in which they and their friends were financially interested, to the amazement and disgust even of leading cotton goods manufacturers.

4. Because such an article as collars and cuffs (to cite only an example) is taxed 45 cents per dozen and 15 per cent additional, which means 66.09 per cent of the foreign market value.

5. Because the United States Treasury, during the year ending June 30, 1909, received from duties on importations of collars and cuffs only $3572.22, showing that 66.09 per cent is practically a prohibitory rate meant, not to produce revenue for the Government, but to stop importation and give monopoly, and monopoly prices to the American manufacturers.

6. Because cotton stockings, hose and half-hose are taxed, in a cunningly worded paragraph of compound ad valorem and specific rates, from 38 to 67.47 per cent; the highest rates, as usual, falling on the lower grades of general consumption among the people. Handkerchiefs are taxed from 45 up to 59.11 per cent.

7. Because the preceding figures are merely sample details of an all-embracing scheme of plunder of the American public through cotton schedule I of the Payne-Aldrich tariff.

8. Because the claim of the mill owners that they need these enormous subsidies from the earnings of the people in order to pay "good American wages to the American workingman" is as false as their other statements in regard to their cost of production, their inability to compete with the "pauper labor of Europe," their being infant industries," etc.

9. Because, as a matter of fact, the cotton mills of Rhode Island (a typical example) pay their operators as follows: Average wages to 25,698 operatives (1906), $6 to $7 per week; men, $8 to $9 per week; women, $6 to $7 per week; children, under 16 years old, $3 to $4 per week; proportion of men employed, 12,010; women, 11,655; children, 2033—a majority of women and children whose wages are from $3 to $7 per week. And a majority of the operatives are not of American birth, being largely French Canadians.

10. Because the Department of Commerce and Labor of the United States has just completed an investigation of the "child labor" conditions prevailing in the cotton goods manufacturing industry of the United States and the facts shown are appalling. Thus the last rag of defense and decency is torn away from the "good American wages for American working men" argument which has long been the chief shield for monopoly feeding at the public crib. An extra session of Congress must strike at such conditions. Every month's delay adds millions more to the "protected" tolls of the tariff-made trusts.

CHURCHMEN PLEAD FOR A REVISION

Of the churchmen responding to the query of the Post-Dispatch and World a very large majority favor beginning revision at the extra session. Here is the first installment of their replies:

TAWNEY'S BISHOP SPEAKS.
To the Editor of the Post-Dispatch.
I am in favor of an immediate reduction of the tariff, because the tariff ought to be revised—and it will be reduced in the very near future. There is no reason for delaying this reduction and allowing the business of the country to go on with a paralyzing feeling of uncertainty.

P. P. HEFFRON,
Bishop of Winona, Winona, Minn., (The home city of Representative James A. Tawney, who was defeated for his "stand patism."

BURDEN ON "THE FORGOTTEN MAN."
To the Editor of the Post-Dispatch.
The burden of the tariff is so great upon "the forgotten man," as the late Prof. Sumner called the consumer, that it seems to me an effort should be made to relieve that burden as far as it may be possible to do so at an early date. If a special session of Congress will produce that result I am strongly in favor of it.

It is a most unfortunate provision in our law that a newly-elected Congress must wait for a year or more before it enters upon its duties, by which time other issues have arisen and new combinations have been made. The expression of the popular will at the November election should, it se ms to me, find utterance at an ea-ly date in the legislature of Congress. The people who pay the bills and derive no benefit from our tariff and the pathetic situation of multitudes of them who are striving under great difficulties to provide themselves with the necessities of life, urgently appeal for relief.

FREDERICK F. REESE,
Bishop of Georgia, Savannah, Ga.

IS THIS LONGER A DEMOCRACY?
To the Editor of the Post-Dispatch.
Is it quite possible to continue, with truth, to call this country a democracy when the will of the people in so many instances and in so many directions are absolutely ignored?

The English system is far preferable to our own when matters in dispute are referred quickly to the popular vote and the mind of the people having been expressed their representatives in Parliament know exactly what is expected of them. It is manifestly unfair to elect men to office in November of 1910 who do not take their seats until 13 months have passed.

I am unqualifiedly in favor of a special session of Congress to reform the tariff and reduce the cost of living in response to the popular verdict of the election last November. The sooner the better. I am also in favor of a permanent commission on the tariff.

CORTLANDT WHITEHEAD,
Bishop of Pittsburg, Pittsburg, Pa.

WAIT TWO OR THREE YEARS.
To the Editor of the Post-Dispatch.
I do not believe that a special session of Congress would succeed in reforming the tariff; it is a work that requires the most careful management, the very best thought of the brightest men in Congress. If in two or three years we have a decent tariff downwards in what relates to the poor man's living, we may be well satisfied.

JAMES McGOLRICK,
Bishop of Duluth, Duluth, Minn.

Agree on Permanent Tariff Board.
WASHINGTON, Jan. 18.—A permanent Tariff Board along the lines of the Dalzell Bill was agreed upon between the twelve Republican members of the House Committee on Ways and Means yesterday by a vote of 8 to 4. The action followed a series of conferences along the plans for a permanent tariff body, which the President has been urging Congress to provide for at this session.

Baldheaded Men Getting Scarce

Men of America Fast Learning that Baldness is Unnecessary

Now that the wonderful hair nourisher, invigorator, grower and beautifier called Parisian Sage is on sale in every town of consequence in America, men are fast learning that it is a very easy matter to retain possession of their hair and incidentally their youthful appearance. Most skeptics will laugh at such a statement but did you ever know of a skeptic, dear reader, that didn't have a bald head?

Are the Hairs of Your Head Numbered?

And what does the skeptic say to the offer of Wolff-Wilson Drug Co., who guarantees Parisian Sage to banish dandruff, stop falling hair and itching scalp in two weeks.

Parisian Sage is the ideal, delightful hair dressing for men, women and children. It is a prime favorite with women who desire brilliant and fascinating hair. Large bottle, 50 cents at Wolff-Wilson Drug Co., and druggists everywhere. The girl with Auburn hair on every bottle.

GRAND JURY GETS VOTE BRIBE FACTS AT DANVILLE, ILL.

Witnesses Tell Story Secretly to Foreman and Will Ttake Stand Monday.

POLITICIANS ARE ANXIOUS

Promise to Disfranchise 3500 Electors Causes Alarm in Their Ranks.

Special to the Post-Dispatch.

DANVILLE, Ill., Jan. 19.—When the Vermilion County grand jury convenes Monday it will begin in earnest the consideration of vote-buying in this city and county. Summonses were issued this morning for a large number of witnesses, and while they are ordered to appear forthwith, they will not be called until Monday. In the meantime the inquisitors will finish with the jail prisoners and the Elsie Cochrane murder case which will require until Saturday.

It was asserted today that the editors and reporters on the various newspapers in this city would be required to appear and that they would be asked to tell what they know in connection with vote buying.

Politicians have been active in minimizing the inquiry and are alleged to be using their efforts to prevent the return of indictments. The grand jury, however, is made up of farmers and Foreman Isaac Woodward has declared that no pressure can be brought which will stop the investigation. He is a Ridge Farm banker, long identified with public affairs in the county.

Night Conferences Alarm.

Uneasiness has been caused by reported visits, some of them late at night, to the home of Woodward, since he was chosen foreman of the grand jury. The identity of his callers has been concealed, as far as possible, but it is believed that later they will appear in public and tell all they know of election bribery.

Woodward has said that he will produce evidence which will disfranchise 3500 voters in Vermilion County and many who have traced his sources of information believe that his promise will be fulfilled.

Politicians admit that someone has supplied information which will serve as a wedge in the inquiry and force others who have been summoned to tell what they know.

Judge Kimbrough put the machinery in operation when he told the grand jury of the reports of bribery. State's Attorney John E. Lewman, while he regarded it his duty to present the evidence at hand, questioned the propriety of making a personal search for other facts. Foreman Woodward took the stand that he had been told to investigate and he has gone at the job thoroughly.

He took cognizance of the frequent assertion that no candidate could be elected in Vermilion County without buying the office. The story that 300 electors refused to vote at the primary because the politicians had no money to pay them was sifted and some of those who were reported to have been disappointed were called in.

Expect to Have Full Facts.

The evidence at hand was pieced together, other facts were obtained, new callers came to the Woodward home and it is believed that the entire story of the debauchery of elections in Vermilion County like that in Adams County, O., is about to be assembled in the form of incriminating testimony.

Judge Kimbrough, in charging the Grand Jury said:

"I do not suppose that anybody can defend the business of buying votes, any more than he can defend the business of selling votes, from the standpoint of the moralist or the causist. One offense is as great as the other."

BOY WHO STOLE TO OBTAIN EDUCATION IS DISAPPOINTED

Merten McKendrick, an orphan, 16 years old, desiring to be an electrician, and having no money for tuition fees, had an idea he could get a scholarship by turning burglar. So he shoved his elbow Wednesday through a window of Peter Carroll's grocery, at 2300 Wash street, took two boxes of cigars and a case of cigarettes.

When Merten was arrested Thursday he told Assistant Chief of Detectives McCarthy gleefully that he would be glad to go to the Industrial School, because he could learn to be an electrician there. He had taken the cigars and cigarettes with that in view, he said, and had not tried to hide from the police.

But McCarthy dashed cold water on the youth's hopes. Only those under 13 are sent to the Industrial School. Merten must be tried in the Court of Criminal Correction and go to the penitentiary or workhouse, unless he is paroled.

WIFE CALLS SHOPKEEPER TO EAT, FINDS HE SHOT HIMSELF

Emanuel Desassauer moved aside some boxes in his clothing shop at 1026 Franklin avenue Thursday, placed a chair against the counter, where they had been, sat in it and shot himself through the right temple. He died instantly.

Mrs. Hannah Desassauer, after breakfasting upstairs, went to relieve her husband in the shop, so he might eat. She entered the front door and called to him, then walked toward the back of the place. When she found her husband he was sitting in the chair. The revolver had slipped from his hand to the floor.

Desassauer had been melancholy and partly irresponsible several weeks, his wife said, but had no cause to end his life. She said their homelife was happy, and that business was good. Desassauer was 56 years old. He had been in business there 15 years.

POLICE FIND MAN SHOT; DIES LATER ON HOSPITAL COT

Samuel Stoner Mysteriously Wounded in a Leffingwell Avenue Rooming House.

DECLARES IT AN ACCIDENT

Claims Weapon Was Discharged by Chance as He Examined It.

Samuel J. Stoner, rooming at 619 North Leffingwell avenue, was found dying from a bullet wound in his heart when Patrolman Tozer of the Dayton Street District was called to the house Wednesday evening. He was lying on a sofa in the back parlor, and the revolver was nearby.

Stoner was conscious, and gasped: "I'm dying—it hurts."

On the way to the City Hospital, the wounded man told Tozer that he had shot himself accidentally, while examining the revolver. Tozer questioned him closely, but he stuck to that statement. He died at the hospital two hours after the wound was inflicted.

Arthur McLean, Stoner's roommate, spent Wednesday afternoon downtown with Stoner. They returned to the rooming house half an hour before the shooting. McLean went upstairs, and Stoner remained on the first floor.

When McLean heard the shot, he ran downstairs, but he heard Stoner say nothing more than that the injury hurt. He did not ask him how the shooting happened. He called physicians from the neighborhood, who gave temporary treatment to Stoner.

Tozer got the name of the proprietress of the rooming-house as Mrs. Lou Howard. When a Post-Dispatch reporter called at the house he was told her name was Mrs. Fred Martin, and he talked to her and to Fred Martin. They declined to discuss the shooting.

"Stoner talked to the policeman all the way to the hospital," they said. "The policeman has all the facts."

Stoner was unmarried, 34 years old, and was employed as waiter at a downtown restaurant.

When The Stomach Stops

Working Properly, Because There Is Wind in It, Use Stuart's Dyspepsia Tablets to Set It Going Again.

A Trial Package Free.

The doctors call it flatulency, but unprofessional folks know it as "wind on the stomach," and a most distressing state of things it is. It is a serious condition of this great motor organ. Always annoying and painful in the extreme, at times often leading to bad and fatal results. The stomach embarrassed and hampered with wind, cannot take care of its food properly, and indigestion follows, and this has a train too appalling to enumerate. The entire system is implicated—made an active or passive factor in this trouble and life soon becomes a questionable boon.

All this is explained in doctor books; how undigested food causes gases by fermentation and fomentation, in which process some essential fluids are destroyed—burnt up—wasted by chemical action, followed by defective nutrition and the distribution through the alimentary tract of chemically wrong elements, and as a consequence the stomach and entire system is starved. Plenty of food, you see, but spoilt in preparation and worse than worthless.

A deranged stomach is the epitome of evil; nothing too bad to emanate from it, but the gas it generates is probably its worst primary effect and the only way to do away with this is to remove the cause. Stuart's Dyspepsia Tablets go to the root of this trouble. They attack the gas-making foods and render them harmless. Flatulency or wind on the stomach simply cannot exist where these powerful and wonder-working little tablets are in evidence.

They were made for this very purpose, to attack gas-making foods and convert them into proper nutriment. This is their province and office. A whole book could be written about them and then not all told, that might be told with profit to sufferers from this painful disease, dyspepsia. It would mention the years of patient and expensive experiment in effort to arrive at this result—of failures innumerable and at last success. It would make mention of the different stomach correctives that enter into this tablet and make it faithfully represent all.

Stuart's Dyspepsia Tablets are not alone intended for the sick, but well folks as well; for the person who craves hearty foods and wants to eat heartily and run no risk of bad effects, they act like a charm and make eating and digestion a delight and pleasure. They keep the stomach active and energetic and able and willing to do extra work without special labor or effort. Don't forget this. Well people are often neglected, but the Stuart Dyspepsia Tablets have them in mind.

A free trial package will be sent any one who wants to know just what they are, how they look and taste, before beginning treatment with them. After this go to the drug store for them, everywhere, here or at home. They are 50 cents a box, and by getting them at home you will save time and postage. Your doctor will prescribe them; they say there are 40,000 doctors using them, but when you know what is the matter with yourself, why go to the expense of a prescription? For Free trial package address F. A. Stuart Co., 150 Stuart Building, Marshall, Michigan.

LITTLE GEORGIE WILLIAMS IN A ROW AND IS ARRESTED

George G. Williams, slayer of Lee Killian, and now house detective at the American Hotel, was arrested Wednesday night after an encounter in which Chris Sulzer, 62 years old, was knocked down on a sidewalk and his right knee cap broken.

Sulzer, who was sent to the City Hospital, said he collided with Williams accidentally, and that before he had time to apologize, Williams struck him. Joseph Geige, watchman at the Commercial Building, is named by the police as a witness to the attack.

GIRLS WHO WORK SHOULD KNOW THIS

Writing on beauty topics for the Philadelphia Inquirer, Mrs. Mae Marvyn says: "Liquid preparations are fast supplanting face powders, as it is found their continued use has a tendency to clog the pores, causing blackheads and other blemishes.

"I find," she says, "when face powders are tabooed and a liquid is used, the muddy condition soon disappears and the skin takes on a pink glow of health.

"One of the best and most popular lotions is made by dissolving 4 ounces of spurmax in ½-pint hot water, then adding 2 teaspoonfuls glycerine.

"This is much easier to apply than powder, and so simple and inexpensive to make that every woman should have it on her dressing table, while its use will be found invaluable for rough or blotchy skins."—ADV.

IMPORTANT CASE OF ATTORNEY WAS HIS OWN WEDDING

Clients of Forest P. Tralles, who called at his office in the Bank of Commerce Building Thursday, were told that Tralles had an important case on hand and would not be at his office today. As they turned to leave they could not help seeing a sign pasted on the door which read: "Mr. Tralles has taken unto himself a wife; please tread softly."

Friends then learned that the important case in which Tralles is engaged was his marriage to Miss Hermine C. Willbrand Thursday afternoon at St. Charles. Tralles was regarded as a confirmed bachelor by his acquaintances and they could hardly realize that the information was not the work of a practical joker until it was verified.

The ceremony was performed by the Rev. A. B. Almstedt at the German Lutheran Church in St. Charles. The wedding was private, only immediate relatives being present. Mrs. L. E. Tralles of Washington, D. C., mother of the attorney, came to St. Louis to attend the wedding.

The bride is a daughter of Mr. and Mrs. Casper H. Willbrand of Orchard Farm, St. Charles County. Her father is one of the wealthiest residents of the county.

SHEEHAN LOSES 2 VOTES IN NEW YORK DEADLOCK

Forever Supreme Court Justice O'Brien Enters the Race at Albany With 1 Vote.

ALBANY, N. Y., Jan. 19.—The second joint ballot for United States Senator today only fastened the deadlock a little tighter. William F. Sheehan lost two of his votes.

Two new candidates entered the official lists and the total number now stands at nine, including the Republican choice, Senator Depew.

The new men are former Supreme Court Justice Morgan J. O'Brien of New York and John J. Kernan of Utica.

The total vote was as follows:

Democrats—Sheehan, 88; Shepard, 13; Parker, 7; Herrick, 7; Littleton, 2; Garaid, 2; Kernan, 2; O'Brien, 1. Necessary for choice, 100.

The insurgent Democrats, who refused to caucus, declared this afternoon that they were satisfied with their showing and that they believed they had demonstrated to the Sheehan men that his election was impossible.

Iowa Legislature Votes for Senator in Joint Ballot.

DES MOINES, Io., Jan. 19.—The first joint ballot of the Iowa Legislature for United States Senator today resulted as follows: Young, 34; Funk, 22; Kenyon, 25; Byers, 14; Garst, 7; Franke, 1; Porter (Democrat), 52.

Highwaymen Rob Tailor of $30.

Two highwaymen stopped William Sandmann at Sixteenth and Market streets Wednesday night, and, after compelling him to hold up his hands, robbed him of $30. Sandmann is a tailor, and lives at 3747 South Broadway.

PROSECUTOR TO BE CALLED IN THE SCHENK CASE

Defense Wants to Know Source of $15,000 or $20,000 He Has Expended.

DEFENDANT IN COLLAPSE

Calm Which Has Been Shown by Accused Wife of Millionaire Vanishes.

By Associated Press.

WHEELING, W. Va., Jan. 19.—The prosecution in the trial of Mrs. Laura Farnsworth Schenk, who is charged with poisoning her husband, John D. Schenk, is expected to conclude its direct testimony today. This announcement was made by Prosecutor Handland last night. Several witnesses are to be called by the State, among them, it is said, being one or two that have testified on the direct examination. The defense is expected to open late this afternoon or tomorrow.

Judge Jordan refused to sustain a motion for dismissal of the case or have it argued. It was stated by the defense that the first witness to be called this afternoon would be Prosecutor Handlan, who will be asked where he got the $15,000 to $20,000 which he is alleged to have spent in preparing the Schenk case for trial. In West Virginia the prosecutor is not allowed money for the preparation of a criminal case.

The prosecutor, it is stated, will also be asked to show why he has not proved the principal points outlined to the jury in his opening address. The trial was resumed at 2 o'clock.

Chauffeur Lundy Wilson, recalled, testified to the alleged visit to the residence of Dr. Meyers. He said he was ordered by Mrs. Schenk to stop the car at a bend in the road from which point he could not see the Meyers residence.

"Why did you not inform Schenk as to what was going on?"

"It was no business of mine."

Nurse Declares Schenk Cried.

Alma Evans, the nurse, testified that while she was in the Schenk home, nursing Schenk, he had frequent crying fits.

"Did Mrs. Schenk talk to you concerning her gentlemen friends?"

"Yes. One day I was in the parlor with her when she showed me a flower basket and told me she appreciated it highly. It had been given to her, with violets, she said, by a man friend."

"Miss Evans, did you ever put arsenic into water used by John O. Schenk?"

"No, sir."

"Did you ever put lead in his medicine?"

"No, sir."

"Did Mrs. Schenk narrate improper stories as to herself and other men?"

"She did," was the reply, but the witness refused to tell them to the jury.

The witness was permitted to leave the stand and the prosecutor announced he had completed his case with the exception of the cross-examination of Dr. Best and Dr. Baer. A recess was taken while the doctors were being summoned.

During the recess the defense had 94 subpenas issued for the first lot of doctors which Attorney O'Brien will summon to find whether Mrs. Schenk bought poison in Wheeling.

Prescribed for Schenk.

When Dr. D. H. Best took the stand he said he had been the Schenk family physician for 12 years before John Schenk's latest illness. When he visited the house in October, Schenk told him he had been ill a number of times. He examined the man and concluded he was suffering from Bright's disease and stomach trouble. He prescribed bismuth and codine to deaden pain, poisonous drug when given in excess of physicians' doses. As a result of this treatment Schenk improved and was able to go to work. Schenk then showed no signs of lead or arsenic poisoning.

He also treated Schenk for tonsilitis, but there were no blue lines in his mouth. The doctor expressed the opinion that the sudden coming on of the illness also indicated ptomaine poisoning.

After Herbert Baer had been asked how often he had examined the water Schenk used, and the question had been ruled out, the prosecution rested, and the defense notified the court a motion would be made to dismiss the case.

Judge Jordan adjourned court until this afternoon.

Mrs. Schenk collapsed yesterday under the strain of the trial and had to be led to the jail, unable to withstand the strain. The trial temporarily was suspended.

Since Mrs. Schenk's arrest on Nov. 9 she had displayed a remarkable calm, until yesterday. When apparently damaging testimony was being offered against her it failed to disturb her beyond a slight exhibition of nervousness.

Mrs. Schenk had not been looking as well as on previous days of the court sessions, and suddenly toward the closing hour she leaned over to Frank O'Brien, one of her attorneys, and asked him to get a glass of water for her. She gulped it down and it was only a few moments until she said to another attorney, "For God's sake, get a few minutes' recess."

This request was granted and Mrs. Schenk was taken to the county jail, where she became violently ill.

Popular Place for Winter Tourists.

The Hampton Terrace at Augusta, Ga., a popular hotel among those who migrate southward during the winter, has thrown open its doors for the season. Augusta, about equi-distant from Chicago and New York, and readily accessible from St. Louis, offers an ideal location for a winter resort. It is noted for its dry, clear, climate, especially beneficial to weak lungs.

The hotel is 300 feet above the river and 700 feet above sea level. The average winter temperature is 54 degrees. The hotel is handsomely appointed, with accommodations for 500. It has a 9-hole golf course.

Bill to Prevent Corrupt Elections.

WASHINGTON, Jan. 19.—A bill to prevent corrupt practices in the election of any official under the Constitution was introduced in the Senate today by Senator Beveridge.

Health For Sick Women

We know of no other medicine which has been so successful in relieving the suffering of women, or secured so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every woman you meet has either been benefited by it, or knows some one who has.

In the Pinkham Laboratory at Lynn, Mass., are files containing over one million one hundred thousand letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations.

Lydia E. Pinkham's Vegetable Compound is made exclusively from roots and herbs, and is perfectly harmless.

The reason why it is so successful is because it contains ingredients which act directly upon the organs, restoring them to healthy and normal activity.

Thousands of unsolicited and genuine testimonials such as the following prove the efficiency of this simple remedy:

Coloma, Wisconsin. — "For three years I was troubled with female ailments, backache and headache. I saw an advertisement of Lydia E. Pinkham's Vegetable Compound and decided to try it. After taking several bottles I found it was helping me, and I must say that I am perfectly well now and can not thank you enough for what Lydia E. Pinkham's Vegetable Compound has done for me." —Mrs. John Wentland, R. F. D. No. 3, Box 60, Coloma, Wisconsin.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

CHILLS? IT'S GRIP!

Duffy's Pure Malt Whiskey Is a Wonderful Remedy for Grip, Coughs, Colds, Asthma, Bronchitis, Pneumonia, Consumption, and All Throat and Lung Troubles.

Grip is an infectious disease, which attacks weak and strong alike, especially if the blood is sluggish, and generally involving the mucous membrane of the air passages from the nostril down to and including the lungs. Serious complications are liable to develop in the course of the disease, as grip settles in the weakest part of the system, sometimes the kidneys, the brain, the stomach or the heart, resulting often in heart failure, but the most dreaded of all, pneumonia, which is particularly fatal when arising from grip.

The fatalities resulting from this disease within the past few years have sufficiently aroused doctors to the importance of giving the disease the closest investigation.

Duffy' Pure Malt Whiskey is a remarkable remedy in the prevention and cure of grip, coughs, colds, influenza, asthma, bronchitis, catarrh, pneumonia, consumption and all diseases of the throat and lungs; it prevents complications and bad after effects that grip so often leaves in the system. Duffy's Pure Malt Whiskey not only assists in killing the germs, but it stimulates the blood, aids digestion and tons the action of the heart.

Duffy's Pure Malt Whiskey

has to its credit years of success, without a question as to its merits as a curative agent. It is an absolutely pure, gentle and invigorating stimulant and tonic. During this time it has brought the blessings of health to overworked men, delicate women and sickly children who find in it the strength-giving properties that are so necessary to them. It makes the old feel young and keeps the young strong and vigorous. It is prescribed by doctors and recognized as a family medicine everywhere.

CAUTION—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey, be sure you get the genuine. It is an absolutely pure medicinal malt whiskey, and is sold IN SEALED BOTTLES ONLY—never in bulk. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Price $1.00 a large bottle. Duffy Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y., for an illustrated medical booklet containing testimonials and many common sense rules for health and doctors' advice, both sent free.

SOME acquaintances are valuable, others merely agreeable. You probably have many of the latter kind—so let Post-Dispatch Want Ads help you to make some of the former.

Stylish Street Dresses and Suits, $12.50

Regular $20.00 to $25.00 Values

A SALE that will be of much interest to quite a few women is this one of stylish Street Dresses and Tailored Suits which we will conduct Friday. We have selected from our regular stock the remainder of Suits and Street Dresses which were formerly priced $20 to $25 and reduced them to the price of $12.50, a figure we are sure will close them out in a hurry.

THE Dresses are made of best quality Henrietta cloth, French serge and excellent quality satin, with trimmings of braid, velvet or chiffon-covered Persian. Some $12.50 have lace or net yoke, collar and undersleeves, and are finished with large satin sailor collar. The colors are mostly dark; just right, in fact, for outdoor or afternoon wear.

THE Suits can be had in either strictly tailored style or trimmed models, with braid, fancy buttons or contrasting color material. They are made of serge, broadcloth, cheviot, zibeline and novelty basket weave, in the very best styles, many of them being suitable in weight and style for the coming Spring. Coats are lined with best quality satin or peau de cygne. These garments represent some of the best values we have offered this year. There are plenty of grays, blues, black and mixtures in the lot. Former prices were $20.00 to $25.00; choice, $12.50.

BLACK HAND'S SHADOW KEEPS MAN IN FEAR

Antonio Lorenzo Refuses to Leave Police Station and Risk Being Killed.

PROTECTED FOR 3 WEEKS

Will Not Return to His Family Until After Trial of Two Men.

Antonio Lorenzo, menaced by the Black Hand, is entering on the third week of his voluntary imprisonment at the Mounted District Police Station.

He still starts at every unaccustomed sound and sleeps on a bench in the assembly room of the station where at all hours of the day and night he is under the watchful eyes of the police.

Captain O'Brien has tried in vain to induce Lorenzo to return to his wife and two children who are at his home in that section of southwest St. Louis, known as Dago Hill.

Though Lorenzo looking from the windows of the Mounted Station can see the smoke rising from his own chimney, and though he loves his wife and children, he will not return to them because he believes that if he did so he would forfeit his life to the dread vendetta.

Lorenzo owned a grocery store in the Dago Hill district. A letter bearing the mark of the Black Hand was sent to him with a demand for money. He ignored the letter and his store was blown up with dynamite.

Two men are held for the crime, but Lorenzo believes their friends would destroy him if he ventured out. Three times he has gone to the Four Courts to give testimony to the Circuit Attorney and each time he went under guard of a sergeant and a patrolman. He says he wants to remain at the Mounted Station until the accused men have been tried.

COURT RULES ON DRUNKENNESS

Circuit Judge McElhinney at Clayton Wednesday, in granting Edna C. Simmons of Webster Groves a divorce, on the ground of drunkenness, ruled that her husband, Stanley Simmons, was drunk when he imbibed so much liquor that he complained about his dinner being cold at 9 o'clock, when he was not home at 6 p. m. to eat it.

Mrs. Simmons also charged that her husband failed to support her. She is the daughter of Charles R. Siddy, a wealthy lace importer, who lives at 165 Maple avenue, Webster Groves. She asked no alimony.

20 SMOKE CASES WILL BE PUSHED DAILY, IN COURT

Porsecutor Sidener Promises to Handle That Many, If There Are No Jury Trials.

WOMEN GATHER EVIDENCE

Workers Assigned to Districts, Others Are Placed on Reserve List.

Prosecuting Attorney Sidener told a Post-Dispatch reporter Thursday that he would dispose of 20 cases against smoke violators daily if the Women's Organization for Smoke Abatement in St. Louis would present that many.

"I don't care if they swamp my docket," he declared. "I have just as much time as the defendants, and am willing to devote it all to that purpose. I am paid by the city to prosecute misdemeanors, and I can take care of 20 cases a day, if the defendants don't ask for a jury.

"What constitutes a legal case against a violator is the testimony of an eyewitness, who has seen black or gray smoke issuing from a chimney.

"The photographs which are to be taken by the inspectors will be valuable corroborative evidence.

Fines From $25 to $100.

"I am to meet the executive board of women Saturday morning in the office of the Assistant Prosecuting Attorney and instruct Stanton to draw warrants on every case they present. The fine ranges from $25 to $100 for each proven violation. For the first offense the fine probably will be the minimum. After that I will ask for the maximum."

Boiler Inspector Parker, whose duty it is to enforce the ordinances against smoke violators, said that so far he had attended only one meeting held by the women, but that he would cooperate with them to the full extent of his power.

"I take their efforts very seriously," he said, "and I have drawn up printed forms on which the inspectors are to report to the Executive Board any violations they find.

"I received a notice a day or two ago of a public meeting Feb. 2, at some place to be decided on later, and asking me to speak informally and answer questions. I will be glad to do that.

"Everybody seems interested in this movement. Men call me up to tell me where they have seen smoke, and so do policemen, and I have received many notices from the women. All this is helping me materially."

Mrs. E. R. Kroeger, chairman of the Women's Executive Board, said the officials were meeting them more than half way.

Woman Eager to Be Aid.

"Every day we are adding names to the lists of district inspectors. We have not had one refusal from women we have called on. We do not have to district the South Side, because it is so clean that one or two women can do the work.

"There will be 160 women inspectors and 160 assistants. If they find their work too arduous, we will add to the list."

In addition to the regularly appointed inspectors, the committee has on its lists the names of many volunteers, who have said they want to help in the work.

COLLEGE PRESIDENT HELPS IN THE BALDWIN SUIT

He Heard Lucky Baldwin Refer to Woman in Case as His Wife.

LOS ANGELES, Cal., Jan. 19.—More testimony favoring the plaintiff in the Baldwin will contest was introduced yesterday.

Dr. Winslow Anderson, president of the College of Physicians and Surgeons of San Francisco, testified that he had once heard Baldwin refer to Mrs. Lillian Turnbull as his wife, and later Mrs. Delia Mahoney, wife of a former State Senator, declared she had heard the turfman admit that he was the father of the plaintiff in the contest, Miss Anita Turnbull, who is seeking a $3,500,000 share of the estate.

Mrs. Mahoney said Baldwin remarked confidentially to her that he was "willing to care for the child, but not for the woman."

Col. Henry L. Kowalsky, once attorney for Baldwin, and said to have intimate knowledge of the affair between Mrs. Turnbull and the dead turfman, declined to give any testimony on the ground that he felt it would be wrong for him to do so, as he once had acted as the turfman's legal adviser.

SCHOOL SAVINGS BANKS URGED

Children Might Deposit From One Cent Upward.

BOSTON, Jan. 19.—A recommendation for the establishment by the State of school savings banks with the idea of encouraging children in the schools to form the habit of saving is embodied in the annual report of Bank Commissioner Arthur B. Chapin. The commissioner would have the State recognize such an institution in which the children might deposit 1 cent upward, the money to be turned over to regular savings banks by the school officer in charge.

The report from 490 savings institutions in the State show total assets of $1,275,000,000, an increase of $55,000,000 over last report.

KETCHEL CASE BEGINS TODAY

Unwritten Law Will be Defense, Is Believed.

MARSHFIELD, Mo., Jan. 19.—Examination of witnesses in the Ketchel murder case will begin today. Forty temporary jurymen were obtained before court adjourned last night, and from this list the 12 men who will try the defendants, Walter A. Digley and Goldie Smith, will be chosen.

It was evident from questions asked veniremen by attorneys for the defense that they will plead the unwritten law and self-defense.

The Post-Dispatch is the only evening newspaper in St. Louis that receives or publishes news gathered by the Associated Press.

PUPILS GIVE FOOD BY CARTLOAD FOR FAMILY IN WANT

Story in Post-Dispatch of Desperate Plight Brings a Speedy Response.

WAS THE TEACHER'S IDEA

Little Ones Take Supplies to School and Send Them to Mrs. Herod.

Fifty children took something beside their books with them to the Pestalozzi School Wednesday. They carried baskets and bundles containing food for the family of Mrs. Anna Herod, of whose needy condition they had read in Tuesday's Post-Dispatch.

At the suggestion of their teacher, Mrs. Daly, the children returned to school after the noon recess Wednesday, carrying whatever provisions they had been able to get at their homes. Potatoes, bread, beans, meat, canned goods and coffee were included in the contributions. Some brought money instead.

After school the gifts of food, filling several small handcarts, were taken to Mrs. Herod's home, 1512 South Eighth street, by several of the larger boys. Two of the Herod children have been pupils in the Pestalezzi School.

Mrs. Herod, whose husband is disabled by rheumatism, has been trying to support her four small children on the $5 a week which she earns in a rope factory. Her three older daughters, who were her support, were burned to death in a gasoline explosion at 523 Gratiot street, Dec. 12.

The Post-Dispatch has received $24 for Mrs. Herod, which has been delivered to her.

The first contributor was Ruth Wartensleben of 5344A McPherson avenue, who sent $1. The others have been: Cash, $1; Mary Hill, 6019 Washington, $5; A Caller, $5; In Memory, $1; Cash, $3; Fred K. Bishop, Luxemburg, $3; Mrs. L. S., $1; Cash, 50 cents; H. B. P., 50 cents; Mrs. J. Ahrens, $1; One With a Family, $1; Mrs. E. Richards, $1; S. & N., $2.

Post-Dispatch readers have given a total of $105 to Mrs. Sam Kern of 1623 Biddle street, whose pitiful condition was revealed by the death of her husband. Kern had been in the workhouse for beating her and she burned the furniture, having no other fuel to keep her warm when he was ill. Besides the cash, quantities of provisions have been sent to her. Some of the money has been sent direct to Mrs. Kern, and some contributions, which have been acknowledged, were made through the Post-Dispatch. The latest contributions received by the Post-Dispatch for Mrs. Kern were: Ruth Levy, 4631 Morgan street, $2; Working Girl, $1.

ESTATE GOES TO KEEP PARKS

BUFFALO, N. Y., Jan. 19.—The estate of the late William Pryor Letchworth, whose will has just been filed for probate at Warsaw, Wyoming County, will go practically in toto to the American Scenic and Historic Preservation Society for the care and preservation of state and national parks. The estate amounts to several hundred thousand dollars.

The income will be used mainly to care for Letchworth Park, near Rochester, which includes the magnificent Portage Falls.

SENATOR FLETCHER ASKS TO HAVE BALLINGER FIRED

Declares He Is Not Fitted for the Office, Though Innocent of Any Criminality.

WASHINGTON, Jan. 19.—Admitting that no question of criminal guilt has been involved in the charges against Secretary Ballinger, Senator Fletcher of the Ballinger-Pinchot Investigating Committee addressed the Senate today in support of the Purcell resolution declaring that the secretary should not longer be retained in office.

"Studying the secretary's own testimony, we are pressed to the conclusion," said Mr. Fletcher, "that the responsible functions seem to have been placed with subordinates and employes. There has been lacking the constant presence of a guiding, directing, forceful head, fully meeting and appreciating the larger responsibilities of the office.

"After considering the whole record we must believe the derelictions mentioned by Glavis were real, not imaginary.

"That the present Secretary of the Interior is not the man best fitted for the office he holds.

"That his conduct and associations afford intimations justly aroused suspicion; that he has been and is inclined to favor private interests rather than care for those of the public.

"That he has been 'unfaithful both to the public, whose property he has endangered and to the President, whom he has deceived.'"

BUSCH DONATES $1000 TO ST. LOUIS RED CROSS FUND

Telegraphs to W. K. Bixby That He Hopes Citizens Will Quickly Raise $70,000.

Adolphus Busch, by telegram, donated $1000 to the Red Cross Endowment Fund Thursday. The telegram was received by W. K. Bixby, chairman of the St. Louis committee, to which President Taft had apportioned $70,000 as the share it shall raise of the $2,000,000 needed for the fund.

Bixby asked Busch to subscribe $10, and received this prompt reply:

"I comply with great pleasure to your request to become a subscriber to the American Red Cross Society St. Louis fund, and have ordered my secretary to remit to Treasurer Huttig, hoping that the good citizens of St. Louis will promptly and cheerfully step forward and sign for the requisite amount designated by President Taft to the very worthy cause.

"Cordially,

"ADOLPHUS BUSCH."

JUDGE R. E. CULVER QUALIFIES

JEFFERSON CITY, Jan. 19.—Judge R. E. Culver of St. Joseph, who was appointed special commissioner by the Supreme Court to take testimony in the three State contests, qualified today and will hold his first hearing in St. Louis early in February. Culver said that while the contest litigation is political, he will try the issues impartially.

The contest pending before the Supreme Court are: Judge James B. Gannt against Judge John C. Brown; Henry C. Timmonds against Judge Kennish, and Howard A. Gass against William P. Evans for Superintendent of Public Schools.

J. N. SEWELL FINED $10 ON COMPLAINT OF HIS CASHIER

Young Woman Says He Accused Her of Being $10 Short and Chased Her.

James N. Sewell, president of a Fourth street commission company, was fined $10 and costs Thursday by Judge Tracy of the Clark Avenue Police Court for disturbing the peace of his former cashier, Miss Bessie Shapiro of 1008 North Sixteenth street.

Miss Shapiro testified that Sewell, on her return from the bank to his office, Nov. 28, accused her of being $10 short in her accounts. She said he frightened her so that she attempted to run away, and that he pursued her to the street and struck at her.

Sewell said that she was $10 short, and that when he accused her she ran away, and that he ran after her. Judge Tracey said he should first have given the girl a chance to explain.

DESERTS WIFE AND ARMY; SUED

Soldier's Whereabouts Unknown Since Departing Year Ago.

Mrs. Helen Lee, in a divorce petition filed Thursday at Clayton, alleges that her husband deserted her Jan. 10, 1910, and at the same time deserted from the United States Army and left St. Louis. She says she does not know her husband's whereabouts. She asks for the restoration of her maiden name, Helen La Farth.

The Lees were married in St. Louis July 8, 1909. Lee was stationed at Jefferson Barracks. Since He departed Mrs. Lee has been employed in the home of an officer at Jefferson Barracks. The suit was filed by former Judge George Wolff.

FATHER WHO ADVERTISES "YOU GET THE GIRL" LOSES DAUGHTER

Young Man Takes J. F. Hellrung's Hint and Invades His Family for a Bride.

J. F. Hellrung, president of a house-furnishing company, originated the advertisement phrase, "You get the girl; we'll do the rest."

George R. Dostal took the hint. He got the girl right in Hellrung's household. Wednesday morning he led Hellrung's daughter, Miss Catherine M. Hellrung, to the altar of the Holy Ghost Church and they were married by the Rev. Father Rothenstein.

Miss Amanda Hellrung, a sister, was the bride's only attendant, and Harry B. Dostal, brother of the bridegroom, was best man.

A wedding breakfast was served at the bride's home, after which the young couple departed on a honeymoon trip to Florida. They will live at 1420 Union boulevard.

State Courts to Try Corporations.

WASHINGTON, Jan. 19.—The House of Representatives have adopted an amendment to the Moon bill codifying the laws, regarding the judiciary, which will stop the practice of corporations doing an interstate business from taking practically all suits against them out of the hands of state courts and placing them in the Federal courts.

BREAKS THE MOST STUBBORN COLD AND ENDS GRIPPE MISERY IN A FEW HOURS.

The most effective and harmless way to cure the grippe or break a severe cold, either in the head, chest, back, stomach or limbs, is a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

You will distinctly feel the cold breaking and all grippe symptoms going after the very first dose. It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, soreness, stiffness and rheumatic aching.

Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

After three years' research we have conclusively demonstrated that quinine is not effective in the treatment of colds or grippe.—ADV.

LANYON'S FATHER KNEW HE PLANNED TO MARRY ACTRESS

Father Declares It Was Not an Elopement—Heir to Large Fortune.

Robert M. Lanyon, son of William Lanyon of 4440 Lindell boulevard, and heir to one of the biggest mining properties in the Joplin zinc district, has quit his studies in Yale, and was married in New York Wednesday to Miss Alice Lillian O'Connor, a vaudeville actress.

The couple met a year ago, when the young woman, then 18 years old, appeared in a dancing act in a theater in New Haven, Conn. Later, when the same act was produced at the Columbia Theater, St. Louis, last June, Miss O'Connor met Mrs. Lanyon, the young man's mother.

The bridegroom's father said to a Post-Dispatch reporter Thursday that the marriage was not an elopement, and that his son's plans had been announced in advance to the family. Young Lanyon was in St. Louis last week and left for New York Friday.

The father was formerly Mayor of Pittsburg, Kan., and is rated as a millionaire. The Cherokee-Lanyon smelter is one of the biggest in the Southwest.

The bridal pair will probably visit St. Louis before taking a honeymoon journey. The bridegroom lately passed his twenty-first birthday.

NO CUSTOM HOUSES IN AIR

Aeroplanes May Therefore Fly Into Cuba Duty Free.

NEW YORK, Jan. 19.—"Aerolanpes, when flown into Cuba, will be admitted free of charge. There is no customs house in the sky, but if shipped there by steam the customs officials will demand duty."

This information comes in a statement from Mariana Rocaford, Cuban Consul General here, in response to a question regarding the proposed trip of J. A. D. McCurdy, who intends to fly from Florida to Havana on Saturday.

McCurdy, therefore, will not have any trouble getting his machine past the port officials of the island republic.

NIGHT WATCHMAN ACQUITTED FOR KILLING ICEMAN

Jury Finds That Louis Eder Acted in Self Defense When He Shot Joseph Eichmann.

CHOKED WHEN HE FIRED

Younger Man Was Overpowering Caretaker, Defense Showed at Trial.

Louis Eder, 64 years old, a night watchman for the Polar Wave Ice Co., was acquitted of the charge of murder by a jury in Judge Taylor's division of the Criminal Court Tuesday night after the jury had deliberated an hour. Eder's plea was self-defense. He shot and killed Joseph Eichmann, a driver, in the office of the company, Oct. 3, 1910.

Eder was released after the jury returned its verdict and went to his home at 1022 Elm avenue, St. Louis County. Eichmann was 26 years old and lived at 1036 East Park place, St. Louis County.

Eichmann and Eder quarreled about the method of handling a horse and wagon driven by Eichmann. In the evening struggle Eder got a revolver from a drawer in the office and shot Eichmann in the left side. Eichmann died in a short time at St. Mary's Hospital.

Eder was arrested and stayed in jail until he was acquitted Tuesday night.

The evidence at the trial showed that during the struggle in the office Eder was choked by Eichmann, who was a younger and much stronger man, and that Eichmann's fingers clutched the throat of Eder when the latter reached in a drawer and pulled out the revolver with which he fired the fatal shot.

THE wedding of Miss Lilian Swope, daughter of Mrs. Swope and the late Joel Swope, to Edmund Kaufmann of Toledo, O., will be the large and fashionable event in Columbian Club circles next week. The wedding will be celebrated at the Columbian Club Monday evening, Jan. 23, at 8 o'clock. The Rev. Dr. Leon Harrison will officiate. The bride, who is one of the prettiest and most attractive girls in Columbian Club circles, will be given away by her uncle, Meyer Swope.

Saul Kaufmann of Toledo will attend his brother as best man. Miss Swope will be attended by her sister, Mrs. Sidney J. Ross of Phoenix, Ariz., as matron of honor. Mrs. Ross will be remembered as Miss Birdie Swope.

A large reception will follow the ceremony. Mr. Kaufmann and his bride will take a long Southern bridal journey and be at home in Toledo. A dinner will be given at the Columbian Club Sunday evening for members of the bridal party and immediate relatives.

Cards have been issued by Edgar Tilton for a large masked ball at the St. Louis Club for his daughter, Miss Esther Tilton, Friday evening, Feb. 3.

Miss Adelaide Walker and Miss Charlotte Filley will be guests of honor at a dinner dance to be given by Dr. and Mrs. Malvern B. Clopton at the Country Club Tuesday evening, Jan. 24. A vaudeville entertainment will follow the dinner.

Society is anticipating the Morning Choral Club concert to be given Monday evening at the Odeon. The club will present as their artist for the evening M. Clement, and the program will be of unusual attraction. The audience promises to be one of the most brilliant of the season. The program follows:

Fischel, E. J. Giarcon Jr., Edward F. Goltra, George Hitchcock, Fred Lehmann, Philip N. Moore, Isaac W. Morton, Alfred L. Shapleigh, George W. Simmons, James Waterworth and Rolla Wells.

Clarence J. Owens of Washington, who is here to deliver the oration of the Robert E. Lee birthday celebration, is being entertained during his visit at the home of Mr. and Mrs. Thomas E. Powe, 304 Skinker road.

Mrs. Frank M. Grant of 3135 Washington avenue entertained at luncheon Tuesday afternoon in honor of the gypsies who will tell the fortune of those attending the skating carnival at the Jal Alai, Wednesday evening, Jan. 25, for the benefit of the Old Folks' Sunshine Home. Among those present were: Mmes. W. S. Campbell, F. E. Dicknelte, J. H. Sommerick, Misses Margaret Reno, Ruth Neff, Elsie Dicknelte, Elmo Critchfield, and Judy and Ethel Walker.

The second Amphion concert will be given at the Odeon Tuesday, Jan. 24. The artists for the concert will be Mme. Kirkby Lunn, contralto, and Edward Dithier, violinist.

Mr. and Mrs. S. Livingston have departed for New York to spend a month with friends and relatives.

Mr. and Mrs. Alex P. Geranios of 4368 Maryland avenue will depart this week to spend a week in New York.

The Union Club will give its second dinner dance of the season at the club house Thursday evening. The club members will be permitted on this occasion to entertain their friends.

A stag dinner will be given for Thomas Murphy, whose marriage to Miss Vivian Duncan Dulany occurs in Hannibal, Mo., Tuesday, Jan. 24, Thursday evening, by his groomsmen, who are Messrs. Stanley Bullyant, Travis Fleishel, Arthur Walt, Frederick F. Campbell and W. H. Dulany. A special car of St. Louis guests will go up to Hannibal for the wedding next week.

Senator Frank McAllester and the Hon. John C. Barker of Jefferson City will speak before the members of the Wednesday Club Friday, Jan. 20, at 3 o'clock. Mr. McAllester's subject will be "How a Bill Becomes a Law." Mr. Barker will speak on "Workmen's Compensation."

A Wreck in 1892 Well and Strong Now

owing to the wonderful curative value of

WARNER'S SAFE CURE

For the Kidneys, Liver, Bladder and Blood

So writes Mr. J. R. Adams, 31 N. 57th St., Philadelphia, Pa.: "In the early part of 1892 I was a wreck, and I found I was running into Bright's Disease. I began to take Warner's Safe Cure. I had a terribly hard fight and was not able to work much of the time for three years. I must have taken over one hundred and fifty bottles by the time I could work at all steadily, but your remedy saved my life—I am positive of that. Since then when I take cold or feel badly I use Warner's Safe Cure with excellent results."

Warner's Safe Cure has been before the public for many years and has to its credit the cure of thousands of cases of Bright's Disease. An army of men and women of all ages are today living who would be in their graves had they not taken Warner's Safe Cure.

When the kidneys are disorganized, and their structure, including the little delicate tubules, are breaking down; when the face is puffed with a pale, marble-like appearance, and the whole body is dropsical, Warner's Safe Cure will remedy the trouble and bring health where death would be inevitable. Warner's Safe Cure is put up in 50-cent and $1.00 sizes and sold by druggists everywhere.

Constipation and Biliousness

When the bowels do not move freely, it shows that the liver is inactive, and the bile, instead of being eliminated by the intestines is taken up by the blood. In consequence the internal organs are deranged and you have a bilious attack. After frequent attacks the skin becomes sallow and rough. You are troubled with headache, constipation, coated tongue, bad breath, sour stomach, loss of appetite, pains in the side and you feel out of sorts, and should take Warner's Safe Pills, purely vegetable, sugar-coated, absolutely free from injurious substances, a perfect laxative. They do not gripe or leave any bad after effects. 25c a box.

Sample Bottle and Box of Pills Free To convince every sufferer from diseases of the kidneys and liver, that WARNER'S SAFE CURE will absolutely cure, a sample bottle and a sample box of Warner's Safe Pills will be sent FREE OF CHARGE, postpaid to any one who will write WARNER'S SAFE CURE CO., Rochester, N. Y., and mention having seen this liberal offer in the St. Louis Daily Post-Dispatch. The genuineness of this offer is fully guaranteed

$100,000 GOES TO RECEIVER AT DYING BANKER'S BEHEST

Wife Was Told to Turn Over Property by Husband Who Shot Himself.

MEMPHIS, Tenn., Jan. 19.—Conforming to the wishes of her husband, expressed just before his death, Mrs. Annie St. Horton Schas, widow of President Schas of the defunct Continental Savings Bank, has turned over to the receiver of the bank property valued at a little less than $100,000.

President Schas, who killed himself when the bank went into receivership, created a sensation a few weeks ago.

Mrs. Schas came from Holland and is a member of an old and aristocratic family.

SCIENTIFIC PARTY'S WORK IS STOPPED BY RACE PREJUDICE

Arkansas Natives Refuse to Tolerate Negro Servants Employed by Explorers.

MARKED TREE, Ark., Jan. 19.—Racial distinctions in Arkansas have made it impossible for the Field Committee of the Academy of Natural Sciences of Philadelphia to search the prehistoric mounds on Little River, north of Marked Tree.

A report on the committee's work during the last year has been made by Prof. Clarence J. Moore, who was in charge. The work consisted of opening the mounds on the St. Francis, Little, White and Black rivers, where many skulls and relics were found.

The work above Marked Tree was stopped by the hostility of the natives, who refused to permit the negro servants in the Philadelphia party to enter that section, establishing a "dead line."

SCHUTZ ATTACKS KREISMANN, REBER AND NEW CHARTER

Councilman Charges That Mayor and B. P. I. President Want Ranken Tract for Terminal.

REALTY MEN APPROVE

"That's Right; That's What They Should Do," They Cry, Justifying Action.

Charging that Mayor Kreismann and President Reber of the Board of Public Improvements have used influence to induce the Municipal Assembly to vacate streets in the Ranken tract for the Terminal Railroad Association and pass a bill putting on the city damages resulting from the abolition of the grade crossing at Chouteau avenue and the Missouri Pacific tracks, Councilman W. C. Schutz declared that the new charter would give the Board of Public Improvements authority to permit the Terminal to lay tracks without specific ordinances and would thus defeat the campaign for the removal of the arbitraries.

Gerhart Meets Opposition.

Councilman Schutz was one of several speakers for and against the new charter at the banquet of the Real Estate Exchange in the Mercantile Club Wednesday evening.

When Schutz declared that Mayor Kreismann and President Reber favored the plans of the Terminal Association, C. C. Nicholls, J. B. Krieger and other members of the Exchange cried: "That's right; that's what they should do."

Subsequently when Frank H. Gerhart, another opponent of the charter, asked whether the clause empowering the Board of Public Improvements to issue permits was not enough to justify its defeat, there were loud cries of "No, no."

Applause for McPheeters.

Samuel D. McPheeters, secretary of the Board of Freeholders, answered objections raised by Councilman Schutz and received more boisterous applause than did any other speaker during the evening.

In addition to his open accusations that Mayor Kreismann was lending assistance to the Terminal Association and the Missouri Pacific Railroad, Councilman Schutz made other references to his attempts to control the Republican City Committee in the hope of dictating the legislative nominations next April.

"Two attorneys, both favorable to the new charter, have told me that there is nothing to prevent the Board of Public Improvements from letting the Terminal Association get into the Ranken tract, once the Council passes an ordinance authorizing the board to issue permits," said Schutz.

"The Mayor will appoint the Board and President Reber will be a member of it, because the new charter continues him in office. They both have repeatedly said that they would like to see the Terminal Association get the use of the Ranken tract.

Protest Against Mayor's Power.

"The Mayor has done his best in the last few days to influence Councilmen to pass a bill charging the city with the consequential damages that will be caused by the abolition of the crossings at Chouteau avenue."

On the subject of confirming the Mayor's appointments, Schutz said that he and other Councilmen had protested to the Board of Freeholders against its absence.

"Another councilman and I went to see President Lehmann about confirmation and insisted that it should be included among the Council's prerogatives. He agreed with us and told us to see other Freeholders.

"I asked whom we should see and he told us 'Howe.' On the final vote of the board as to permitting confirmation by the Council, Lehmann and three others voted for it and Howe and eight others against it.

"At one time the Freeholders intended to retire all the present councilmen from office—and they were to be the only officers removed."

At this point Schutz interrupted himself to declare:

"I see Mr. McPheeters shakes his head."

Secretary McPheeters later declared that he had not shaken his head at Schutz.

"All Officers Should Go."

"The Freeholders should have retired all officers, from Mayor down, because under the new charter the functions of each will be entirely different and new men should be chosen to fill the various offices.

"When I heard that it was proposed to retire only Councilmen and continue others, I gave an interview to the newspapers telling what I thought of the plan.

"Next day I was visited by a prominent politician who asked me how I dared criticise the Freeholders. 'It's there and it's going to stay,' this politician told me, speaking of the provision taking from the Council the right to confirm the Mayor's appointments.

"While there is talk of a short ballot, I note that the legislative ticket is exactly the same under the new as the old charter. The number of Councilmen will be 15 instead of 13. Eight will be a majority. Why increase the Council's size if a short ballot is so desirable?"

Injustice to Property Owners.

Schutz declared that the new charter would work injustice to property owners who are taxed for local improvements, that the board's authority is too great, that the civil service provisions are faulty, and that representative government is denied.

Former City Counselor Charles W. Bates, after announcing that he was not asking anyone to vote for the new charter, explained its provisions touching local improvements, taxation and control over new subdivisions and the dedication of streets. He said the clause authorizing the Board of Public Improvements to issue permits could not be construed as covering anything but canopies, areas and [illegible] of the highway.

Secretary McPheeters said that the new charter would take the Council out of politics, and make its members give their whole time to their work, instead of trading for nominations and jobs. He said that when boiled down, the opposition of Councilman Schutz and others fighting the new charter, was distrust of themselves and distrust of every one else. The only question, he said, for determination by the voters was whether the new charter is better on the whole than the old. He said he believed it was.

The sentiment indicated by applause and audible comments of those at the banquet seemed to favor the new charter. Its advocates were especially demonstrative, and during the speeches of Schutz and Gerhart they injected frank expressions of dissent and criticism.

It was understood before the banquet that the Real Estate Exchange would take no action. Friends of the charter say that this was done to prevent them from [illegible] of the charter.

SIX MEETINGS ON CHARTER TONIGHT

Speakers for and Against New Instrument Are to Talk.

There will be six meetings for discussion of the proposed new city charter Thursday night. Speakers for and against the charter are scheduled for the meetings. A mass meeting at the Central Young Men's Christian Association will be addressed by Benjamin H. Charles, Samuel B. McPheeters, George B. Webster and Judge Leo Rassieur.

The Medical Society of the City Hospital Alumni will meet at 3525 Pine street at 8:30 p. m. The speakers will be Dr. Jerome Cook, Dr. John Green Jr. and B. H. Charles.

The Federation of Civic Organizations will meet at the Southern Hotel at 8 p. m. Dr. William Preston Hill, Sheridan Webster and Dr. Paul R. Fletcher, all opponents of the charter, are billed for speeches.

Former City Counselor Bates, counsel for the Board of Freeholders, will explain the provisions of the new charter to the Credit Men at the Mercantile Club. Edward Devoy, a member of the Board of Freeholders, will address the Rotary Club at the American Hotel.

Memorial for Cardinal Gibbons.

BALTIMORE, Jan. 19.—Definite shape has been given to plans for a new structure to be known as the Cardinal Gibbons Memorial Hall at the Catholic University, Washington, D. C. It is intended to commemorate the fiftieth anniversary of his consecration to the priesthood, and the coincident twenty-fifth anniversary of the elevation to the cardinalate.

WANT LUXURIANT HAIR? THEN TRY THIS

"Every woman prizes luxuriant hair," says Mae Martyn, in the Philadelphia Public Ledger, "and many find that much depends on shampooing. Various preparations are used for this purpose, but few are free from injurious ingredients, and the result is thin, straggly hair and itchy scalps.

"A simple and inexpensive shampoo mixture can be made at home by dissolving a teaspoonful of canthrox in a teacup of hot water. This is poured on the scalp and rubbed until lathering freely, then the hair rinsed carefully and dried.

"Nothing so quickly promotes a healthy condition of the scalp as a canthrox shampoo, and its use is certain to produce glossy, luxuriant hair. Care should be taken to get an original package of canthrox.—ADV.

ITALIAN GIRL OF 14 ELOPES WITH MAN SHE KNEW A WEEK

Parent Who Refused to Consent to the Marriage Asks Police Aid.

Frank Bonusa has asked the police to look for his 14-year-old daughter, Vita, who, he says, eloped from her home in the rear of 615 Franklin avenue with Domenico Pespisiano, 28 years old.

Bonusa says his daughter became acquainted with Pespisiano only a week ago. Following an Italian custom, the girl and her sweetheart went to the father and asked his consent to their marriage. When he refused to give it, they disappeared. Bonusa thinks they went to Kansas City.

Gussie Sansone and Nicolo Rosso, for whom the police had been searching a week, obtained a marriage license Wednesday with the consent of the young woman's mother. They will be married Sunday.

PETER KELLS DEDERICK, WHO INVENTED HAY BALER, IS DEAD

He Held More Patents Than Any Other Man in the World, Receiving About 300.

ALBANY, N. Y., Jan. 19.—Word has reached here of the death at Daytona, Fla., of Peter Kells Dederick of this city, who at one time held more patents both in the United States and foreign countries than any man in the world. He went to Florida Jan. 10, for his health.

Dederick was born Feb. 1, 1838, and started in the manufacturing business in this city in 1860. In the following 40 years about 300 American and foreign patents were granted to him, mostly for agricultural machinery. His hay-baling apparatus was the means of starting the hay-shipping industry, which has increased the value of hay fields the world over. His expired patents are the basis of most of the hay presses now in use.

15 MEN ADRIFT ON LUMBER SHIP IN A HURRICANE

Two Other Vessels, Called by Wireless, Stand by, Unable to Be of Assistance.

LIFE BOAT IS WRECKED

Line Is Passed to Disabled Craft, but Violence of Elements Breaks It in Two.

By Associated Press.

EUREKA, Cal., Jan. 19.—Waterlogged, drifting helplessly before a furious hurricane, the lumber-laden steam schooner Lakme, with 15 men, is in peril off Cape Blanco this morning. The steamers Asuncion and Argyl are standing by, but in the raging sea they are unable to give any aid. However, the wind, which reached a velocity of about 100 miles an hour during the night, appears to be subsiding.

The first news of the Lakme's distress came in signals she sent to the wireless station at Cape Blanco yesterday afternoon. The wireless operator sent an "S. O. S." call and the appeal for help was picked up by the steamers Watson, Aggyl and Asuncion. All three responded.

The crew of the Lakme tried to get clear of the derelict by launching a life boat, but the frail craft was smashed to splinters.

A line was passed to the schooner from the Watson, but it was snapped by the strain of the storm before a man could cross it.

At midnight the Watson, which is a passenger liner, left the scene.

The Lakme was bound from Coos Bay to San Pedro. She is a steam schooner of 400 tons, owned by the Charles Nelson Lumber Co. Her commander is Capt. Malmgren.

BERT BALL QUITS MERCHANTS' EXCHANGE PUBLICITY BUREAU

Gives Up $4000-a-Year Job—Work Will Be Done by Assistant Secretary.

Bert Ball has resigned his $4000 a year job as manager of the publicity department of the Merchants' Exchange, according to the statement of a director of the Exchange to a Post-Dispatch reporter Thursday.

It is understood the publicity work of the Exchange will be placed under the jurisdiction of Assistant Secretary Eugene Smith, whom Ball's friends were seeking to oust a few days ago.

According to Smith's suporters Ball had seen the handwriting on the wall so far as a continuance of the publicity department was concerned and at once laid plans to succeed to Smith's place. Smith rallied his forces promptly, however, and more than 300 members of the Exchange signed a petition asking his retention.

Ball is in Denver and officials of the Exchange refuse to confirm the report that he had severed his connection with the organization.

The newly elected president, James C. Garneau, and the new board of directors were elected on a platform promising retrenchment and the publicity department was considered a fruitful field for economy.

It is reported that the board will now begin an inquiry into the Traffic Bureau, whose president, J. C. Lincoln, receives a salary of $10,000 a year.

18 SCHOOL PUPILS ARE BARRED

Visit Child With Membranous Croup and Exclusion Follows.

Eighteen children attending the public schools in the Burd avenue portable school district, around Belt and St. Louis avenues, were excluded Thursday from the schools because they had visited 3-year-old Charley Yerkey before he died with membraneous croup, a communicable disease.

The boy's home was at 5547 Labadie avenue. He became ill last Thursday and died Saturday. The children of 11 families visited him when he was ill and looked at the body after his death. Dr. James Stewart, head of the hygiene department of the Board of Education, ordered the children excluded until after the period of incubation.

SLAM CAUSES BURGLAR SCARE

Policemen Fail to Find Intruder for Frightened Women.

A police sergeant and two patrolmen hastened to the home of Mrs. Edward Cody, 3650 Ann avenue, Thursday at 1 a. m., in response to a message that a burglar was in the house. Mrs. Cody, lying awake, heard a door slam, and aroused her daughter, who opened a window and asked a man who was passing to call a policeman.

When the officers arrived they found all the locks intact and they could see no evidence of an intruder in the home. Mrs. Cody then believed that the slamming of the door was caused by a draft which came through an open window on the second floor.

Mrs. Johanna Rohlfing Disappears.

Mrs. Johanna Rohlfing, 64 years old, disappeared from her home, 3500 Vermont avenue, Tuesday morning, and has not been heard from since. Her son, Otto Fisher, has requested the police to search for her.

PARENTS NOT TO BE PROSECUTED, BOARD DECIDES

Compulsory Education Law Will Not Be Invoked Where Pupils Aren't Vaccinated.

STATUTES UPHOLD RULE

Court Decisions Give Officials Power to Compel Children to Be Inoculated.

James A. Martin of 3218 Pennsylvania avenue, father of Helen and Harry Martin, who were exoluded from the Garfield School because they were not vaccinated, will not be prosecuted by the Board of Education for violation of the compulsory education law.

The compulsory education law is optional with boards of education. The St. Louis board has exercised the option of enforcing it. The truant officers, charged with the duty of prosecuting violators of the law, are employes of the Board of Education.

Under the decisions of the courts it has been found that the board cannot exclude a child because it has not been vaccinated and at the same time prosecute its parents for violation of the compulsory education law. It was stated by Dr. Stewart, health physician for the School Board, at the time of the suspension that the parents would likely be prosecuted.

The Board of Education has not requested an opinion from its attorney E. M. Grossman, as to its right to enforce the vaccination rule. Grossman told a Post-Dispatch reporter that he would not act until the matter was brought before him officially.

Lawyer Quotes Decision.

The attorney pointed out the law and the decisions on vaccination. The Missouri statutes give school boards the right to make all needful rules and regulations for the conduct of schools. The St. Louis Court of Appeals, in an opinion written by former Judge Rombauer in the Rebenack case, held that the St. Louis board had the right to enforce vaccination.

This opinion has been quoted approvingly by the courts of Massachusetts, Utah, Indiana, Minnesota, North Carolina and Pennsylvania, and was referred to by the Missouri Supreme Court in the case of the State ex rel O'Bannon vs. Cole.

While there is no express provision in the statutes giving the board the right to compel all children to submit to vaccination before being admitted to the public schools, the trend of the decisions on the subject is such that the board feels that it will be sustained by the Supreme Court in a test case.

Loomis Johnson, with his father, John D. Johnson, and A. D. Powers, have been retained as attorneys for the Anti-Vaccination Society. They have not decided what legal course will be pursued in the case of the Martin children.

Johnson Answers Critic.

The board will not recede from its position in excluding the Martin children and others from the Grant School. If a test case is made it will undertake to justify its position merely to have the law interpreted by the courts.

Loomis C. Johnson, in reply to a letter signed by Phil Shirmer and printed in the People's Column of the Post-Dispatch Jan. 17, quoting Dr. Osler in support of vaccination, said he desired also to quote Dr. Osler on the other side of the question.

"In Osler's Modern Medicine, vol. 2, page 324," said Johnson, "the great physician says:

1. Tetanus is not a frequent complication of vaccination.

2. The cases occur in small numbers after the use of various viruses.

3. An overwhelming proportion occurred after the use of a particular virus.

4. Tetanus bacilli may be present in virus in small numbers, derived from manure and hay.

5. Through carelessness or accident the number may be greater than usual.

6. Avoidance of the complication is to be sought in greater care in the preparation of the virus.

Wilson (1902) first found tetanus bacilli in vaccine virus, and Carini, out of 400 examinations of 50 different specimens of lymph, found tetanus bacilli five times. He concludes that they belong to the normal flora of lymph, but occur rarely and in small numbers, because in a series of specimens of the same lymph he found the germs in only one tube. Glycerin is a poor protection against tetanus germs, as Rosenau has shown. As preventatives of tetanus he advises superficial incisions, no bandages and careful examination for tetanus germs in vaccine.

Reading the accounts of separate cases, and still more those of epidemics of complications, gives one an unfavorable view of vaccination.

Another Bomb Set Off in Chicago.
CHICAGO, Jan. 19.—Nine persons were injured and a two-story dwelling was wrecked tonight by an explosion of a dynamite bomb in the residence of Camelo Marsala in the Italian colony on the north side of the city. The bomb followed the refusal of Marsala to comply with the demands for $500 in a letter signed "Black Hand."

WRECK OF BRIDAL PARTY DOES NOT DELAY CEREMONY

Couple Is Married, Although Bridegroom, Parents and Best Man Are Cut and Bruised.

By Associated Press.
CHICAGO, Jan. 19.—An automobile crash at Forty-seventh street and Drexel boulevard, in which a bridegroom, his parents and his best man were injured, did not prevent the marriage of Dr. Frank Shaffner to Miss Beatrice Weil, according to schedule last night.

Dr. Shaffner, his wedding suit torn and dirty and several bruises on his face, took his bride's hand and answered the questions put by the minister. The injured man limped and was considerably dressed up, but did duty as if he had not been hurt.

Dr. Shaffner's parents had to be propped up in chairs but they give their blessings to the bride and groom.

Those injured were:

Dr. Phillip Frank Shaffner, bruised.

Herman Shaffner, father of the bridegroom, right leg broken and severe scalp wound.

Mrs. Herman Shaffner, mother of Dr. Shaffner, right wrist broken, cut on head and bruised on body.

Mrs. Fannie Lockey, Mrs. Shaffner's mother, bruised.

Felix Trevellen, chauffeur, bruised.

Isaac Kingbaker, best man, scalp wound and hands cut.

At Drexel boulevard the chauffeur swerved the machine from a car track to avoid a collision with a car approaching from the opposite direction. In taking the next track he failed to see a car approaching from behind. The machine was crushed between the two cars.

The bridal party was scattered about Forty-seventh street on both sides of the car tracks. A carriage was called and the party reached the Weil home on time.

ELOPING PALMISTS ARE CAUGHT

Sheriff Blackmer of Edgar County, Ill., notified the St. Louis police Thursday that he had captured at Helena, Ark., two palmists who had eloped from Paris, Ill., with two young girls.

Sheriff Blackmer was in St. Louis last week looking for the palmists, and enlisted the aid of the Police Department. He traced the men from Paris to Hillsboro, from Hillsboro to St. Louis, and from St. Louis to Helena. He said one of the palmists was known as Prof. Dane. One of the eloping girls was Lelah Teckin, aged 16, the Sheriff reported.

THROW AWAY YOUR WIGS.
A REAL HAIR GROWER AT LAST.

"CRYSTOLIS," THE WONDERFUL NEW DRUG, GROWS HAIR IN 30 DAYS.

Read the Guarantee. $1,000.00 Reward If They Fail.

For many years scientists, not only in America, but also in Great Britain, France, Germany, Russia and other countries, have given endless time and thought to the solving of one of the greatest problems of the Twentieth Century—how to grow hair on the human head and check the hair and scalp troubles which are so alarmingly on the increase—without any marked success. Abundant evidence of the abnormal development of the falling hair trouble is furnished by every group of people one sees, no matter where they may be gathered together or what their numbers may be. Men and women of all ages in these groups are either bald, partially bald, or show a tendency to become bald, much to the detriment of their personal appearances. This is proof positive that up to the present the many advertised hair remedies, such as hair-drills, tonics, pomades, etc., have failed in their mission. Under these circumstances too much credit cannot be given to the experimenting chemist at the Creslo Laboratories, who about a year ago discovered the truly wonderful drug, Crystolis, which really grows hair. To all those who suffer from falling hair, baldness, dandruff and scalp troubles of any description the discovery of this drug must prove to be a boon indeed. All who have already tried it are living testimonies to its efficacy. Exhaustive tests have proved that it will, providing the roots are not quite dead, cover the head with hair in about 30 days. Gray or faded hair was often restored to its natural color and greatly improved in every way in from ten to fourteen days. Dandruff, falling hair, and scalp trouble in minor cases were completely cured after three or four applications.

To sensitive people the loss of hair is a continual nightmare, and to such the advent of Crystolis means more than can be expressed in mere words. To those who depend upon a youthful appearance for their daily bread Crystolis will prove to be a friend indeed. To all who are bald, going bald, or who suffer from dandruff or any hair defects whatever, Crystolis is now within your reach. Take advantage of its proved and remarkable hair-growing properties without delay.

The managers of the Creslo Laboratories have such strong faith in Crystolis that they have decided to make the following remarkable offer: They will forfeit $1000 in gold if they fail to prove that Crystolis actually grows hair. They will forfeit $1000 in gold if anyone can prove they were not the first discoverers of Crystolis. They will forfeit $1000 in gold if it can be proved that it contains any oil, dye or coloring matter of any kind. They will forfeit $1000 in gold if every testimonial and sworn statement which they publish is not absolutely genuine. Merely cut out and send in the coupon below, and you will receive free particulars of this marvelous new product by return mail.

Use Crystolis and throw away your wig in 30 days.

DO IT NOW.

Gov. Harmon of Ohio is not a man of many words. He is a doer rather than a speaker. But he is not a dodger. He stands four-square on his convictions. No one questions his attitude on the tariff after reading his utterances at the Baltimore dinner. The Governor said:

> The people have turned to us, so far as they can at this time, and they have done it with full knowledge of our views on the tariff. They know we believe the raising of public revenue to be the proper object of all taxation. That whatever the process, the Government can and does tax nobody but its own citizens, from whom comes every dollar it gets.
>
> The risk, whatever it may be, must be run sometime, and the sooner the better. We now hold a commission from the people to revise the tariff on the line of a tax for revenue only. Let us do it.

As one of the Democratic leaders—probably the strongest in practical political equipment and influence—who are regarded as presidential material, Gov. Harmon's views on the greatest present issue are interesting. It is gratifying to find him holding clear, well-defined Democratic doctrines. His record in Ohio proves him to be a man of his word and exceptionally efficient in accomplishing his purposes. If the Republicans "stand pat," there would at least be an assurance that Harmon, should he be nominated for the presidency, would rally to the Democratic standard many independent Republican voters who are in revolt against their party tariff policy.

But the opportunity and duty to reduce the tariff which Gov. Harmon sees for the Democrats now rests with the Republicans. President Taft can meet both by calling an extra session. He commands the situation. Do it now, Mr. Taft.

The open opposition to the charter is easily met. But the concealed opposition arising from selfish interest can only be met by a popular vote at the polls.

CONTROLLING INFLUENCE.

When the Missouri Federation of Women's Clubs asks Missouri for representation in school management, this means specifically the privilege of election as members of school boards. It is not likely to be denied, if it is insisted on. There is no record, official or unofficial, to show that Missouri women ever insisted on anything without getting it.

In this connection, however, if what they insist on is control of public education in Missouri, they are ex post facto. The translation of that Latin can be found in the parallel columns which show the number of Missouri teachers "male" in one column and "female" in another. There are enough "males" left to answer the roll call, respectably, but hardly more than that in Missouri or any other state.

It is true that school superintendents, school principals and presidents of state universities are still male as a rule, but these are not the places of controlling influence. Educators of the school of Loyala are said to think nothing will prevail against them after they have had an opportunity to educate the world up to its twelfth year. In Missouri that opportunity is now controlled almost wholly by women. So it is in states as far apart as Texas and Massachusetts. Whatever else is problematical in connection with it, it is altogether certain that its influences are greater now in any given year than all the balloting that was done in any ten years of the nineteenth century.

In his ambition to become a United States Senator from Colorado, the impression widely prevails that Mr. Tammen, a newspaper proprietor of Denver, will be left at the Post.

OUR ILLUSTRIOUS "DEAD BEATS."

The extent of the frauds practiced against Uncle Sam at the customs houses is not known; it has begun dimly to be appreciated. The activity of Loeb in compelling the rich dodgers of import duties to pay the tax on their luxurious indulgences has shown how the Government has been cheated in one particular. The Sugar Trust has bulked into the perspective as a skilled and veteran "dead beat." Now we learn that New York importers of woolens, laces, millinery and silks, being suspected of conventional smuggling, have made offers to the Secretary of the Treasury to compromise the accounts.

If their proposition is accepted the national treasury will be enriched by the sum of $1,000,000. The presumption necessarily is that the offer of settlement is considerably less than the plunder stolen by the orthodox trick of perjury.

We deplore the inability and incompetence manifested by some of our neighbors to the south in the matter of managing customs receipts. As has been noticed previously, the Morgan methods, adorned with the national seal and supplemented with our gunboats, is to be introduced into the customs department of Honduras. The revelations at the port of New York, which may be considered hints rather than exposures, suggests the advisability of employing Mr. Morgan as our own satrap.

AN EXTRA SESSION, MR. TAFT.

In the popular demand for untaxed food and clothing there is nothing hasty or ill-considered. The issue is not new. The remedies indicated are not novel. Men in public life have had more than 30 years to prepare themselves for action. No one who is fairly honest and fairly well-informed can be in doubt as to the justice of the people's complaint or as to the means by which it is to be satisfied.

The new Congress will not meet in regular session until next December, 13 months after its election. By that time presidential politics will be uppermost. The conventions will be under way in the following May or June. Even if the reformation could be given attention amid so many disturbances it would be 18 months at the best before relief could be had.

Instructed by experience, it is practically certain that to postpone these needed reforms until the presidential year is to deny them. That is why every trust magnate and attorney favors delay. That is why the politicians in both parties who represent privilege are in no hurry. That is why monopoly and monopoly's men are frantically pleading the virtues of a permanent tariff commission not yet created.

More governments have been wrecked by indifference to popular needs than by hasty recognition of them. No violence will be done the constitution of the United States by untaxing the people's food. No bulwark of liberty will be menaced by untaxing the people's clothing.

It is no ordinary emergency which the Post-Dispatch presents to Mr. Taft as powerfully justifying an extra session in March. The minds of the people are made up. Last year's verdict was a repetition of several that had preceded it. That it was based upon facts and reason the President's own utterances prove. That it can be disregarded once more without evil consequences is too much to expect.

Extortionate taxes upon food and clothing for the moment have obliterated party lines. As hunger and cold have no political bias, so there need be none in the legislation that relieves them. Yet to be exact and complete, justice must be prompt and it must be granted not as a favor but as a matter of right.

Government without energy is no government. Government that does not respond to the popular will is tyranny. Government that fails to restrain those who may be arbitrary is itself arbitrary. Government that has more respect for persons and interests than it has for the millions who support it is misdirected and in danger.

Which is it to be, Mr. Taft—an extra session obedient to the people's will, or delay and denial?

Aviator Eugene Ely is to be congratulated on his feat of landing safely on the deck of the cruiser Pennsylvania, after a flight of 12 miles, and then rising from the deck like a bird and flying back to the land. It was in November last that Ely, in the aeroplane which won the Post-Dispatch and World prize for the Hudson River flight, flew from the cruiser Birmingham, but broke his propeller blade and had to make a forced descent. He has evidently improved his machine or method of control.

REED'S OPPORTUNITY.

By an exceptional muster of events the Hon. James A. Reed is to be inducted into the office of a United States Senator, plus an immediate opportunity for service.

First, Mr. Reed's certificate of election is signed, so to speak, by the expectancy of the times. He owes his position to the greatest, and, in the end, the most potent of all interests, namely, the interest of the people. How stupidly and criminally that interest has been neglected and flouted in the exalted chamber he is about to enter is of common knowledge. On the Senate scroll of the illustrious neglecters of the popular interest, Mr. Reed may behold the names of his Democratic colleagues as well as those of his Republican brethren. Guidance and good counsel of admonitory character are on that scroll.

Second, the senatorial tradition of an apprenticeship of silence and inaction no longer obtains; it is more honored in the breach than in the observance. There is urgent need in the Senate now for positive patriotism. To a Democratic Senator there is the inciting recollection that the most infamous tariff bill ever enacted into law attained consummation without one Democratic senator challenging the people's imagination by a sincere, statesmanlike protest.

A new tariff law is demanded. To the Republican senators of the new school, such men as La Follette and Cummins, the people are looking; and they're looking to the new Democratic senators, like Reed, to matriculate and take the leadership in that senatorial school.

"There is absolutely no proof, direct or indirect," declares Senator Burrows of Michigan, "from which a legitimate inference could be drawn that a single member of the General Assembly was corruptly influenced to vote for Lorimer." Senator Burrows is a Michigander, but he cackles like a goose.

In a speech dictated to an operator and transmitted by telegraph to the dress fabric manufacturers of New York, Senator Beveridge is reported as saying, "Competing countries long ago done this." But a grammatical rent of that sort wouldn't annoy a group of well-dined fabric manufacturers.

The lines of business that would be seriously disturbed by a revision of the tariff are the lines of business that ought to be seriously disturbed—broken away from their privileges of graft.

The argument that the time until the election is too short for a thorough consideration of the charter is falling down in view of the hasty resolutions condemning it.

The most conspicuous feature of Aldrich's monetary plan is the opportunity it would offer for a presidential control of the money power.

Mr. Sheehan is nine votes short of the necessary-to-elect. All good government fans will root loyally for that nine.

LETTERS FROM THE PEOPLE

Prevention of Auto Accidents.

To the Editor of the Post-Dispatch.

Referring to your editorial in the Post-Dispatch of Jan. 16 regarding the fatal automobile accident on Lawton avenue last Friday night. This and many similar accidents could very likely have been prevented if the driver of the auto had his gas lamp burning. The driver himself admits that he did not see Mr. Primm until he was within ten feet of him, whereas if his gas lamp had been burning he would have seen him at least fifty feet and the chances are that Mr. Primm would also have seen the automobile.

So long as automobile drivers persist in driving at night, fog or no fog, with only two little one-candlepower oil lamps burning these accidents are going to occur with more or less frequency.

The taxicabs are the worst offenders in this respect. Not one of them ever has gas lamps burning at night.

The city fathers should pass an ordinance compelling the use of gas or electric lamps on all automobiles after dark and a heavy fine should be provided for failure to have them lighted.

H. G. WOLZENDORF.

Not Enough Humane Activity.

To the Editor of the Post-Dispatch.

Allow another "stranger within thy gates" to add his protest to J. W. L.'s against the inhuman treatment of the horse and mules in this man's town. In the short time I've been here—two weeks—I venture to say that I've seen more abused and ill-treated work animals than I have seen in 10 years in Boston, New York, Philadelphia, Pittsburg and Chicago combined. It's a sin and a shame that your Humane Society (if you have one) doesn't do something to remedy this evil, but their efforts would be ineffectual if not backed up by the police department.

It was only last Monday I was crossing Olive street when I saw a mule team hauling a heavily-loaded coal wagon going north with one mule having a sore on his shoulder as large as a man's hand and also a hind hoof so sore that he could only place the front edge on the ground. Each step was taken with a most noticeable limp. When I spoke to the crossing policeman about it, particularly the way the negro driver was cutting the poor animal with his black snake, all I got was a fish-eyed stare. This crossing is between Broadway and Twelfth streets—I won't be more definite as I am not anxious to get in a knock against the "poor officer." I don't wish him or his kind any bad luck, but I hope when he went home and rested his tired feet that night that he forgot all about the disabled mule, as he should, having a clear conscience.

VISITOR.

Saloons Near Parks.

To the Editor of the Post-Dispatch.

It is with great interest we read about this park ordinance regarding saloons not to be established within 400 feet. Now why is Fair Ground Park not included? It is a shame, and somebody is going to burn up money now. For their own sake publish this, for it is an insult to the neighborhood. Don't throw your money away, Mr. Saloon Man. From what we are able to learn it seems to be spite work and somebody will likely suffer.

NEIGHBORS OF THE PARK.

The "Lakes-to-the-Gulf" Plan.

To the Editor of the Post-Dispatch.

I note in your editorials of Jan. 16 that you criticise the commission of engineers appointed by President Taft to report on the feasibility of the "Lakes-to-the-Gulf Deep Waterway." You claim that they have made the mistake of going beyond its jurisdiction in declaring this project inadvisable as a transportation measure. I am sure that the American people will accept their report in preference to that of politicians and men who are interested in selling stock in some new transportation company, as the Government can take the same amount of money necessary to do this work and build a railroad on both sides of the Mississippi and operate it for 50 years at less cost than to build this canal and it will give a means of transportation that is much quicker, more desired and more suited to present needs.

You had as well tax the American people for the purpose of building a railroad and then turn the railroad over to some company to operate and make its profit off of the people, as to tax them for this proposed deep waterway and turn it over to the various transportation concerns to use for a profit to themselves. The American people have a right to know if there is a necessity for it as well as its being feasible.

Brentwood, Mo. THOS. McGRADY.

Police Dogs.

To the Editor of the Post-Dispatch.

In answer to "Fiat Justitia's" letter, I agree with him in saying what difference does it make if the police do kill a few worthless crooks, but as I am a police officer myself would not like to have any one's life on my conscience. A policeman would have a far better chance in capturing a crook when assisted by a good faithful dog as they have in Paris. If this officer had a dog pursuing Newman he would have captured him and now would not have anything on his conscience and still would have done police duty.

AN OFFICER.

Salem Branch Railroad Service.

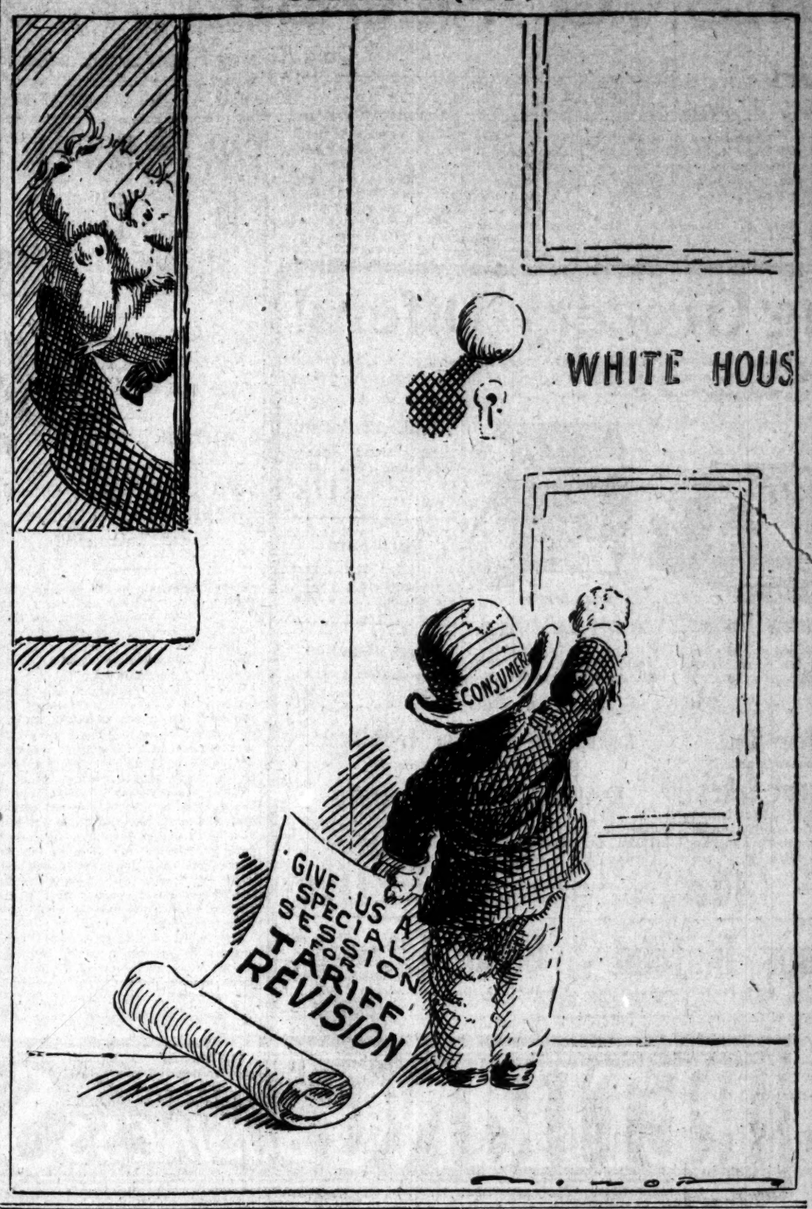

To the Editor of the Post-Dispatch.

I see the Frisco Railway is advertising the advantages of the Ozark country for the settler. "A small farm in the Ozarks," says the ad, "offers you just the opportunity you need." Why don't they back up their ads by giving as good a service on branch lines as they do on the main line? The Salem branch line goes into the Ozark region and there is a good chance for the settler, if he had decent railway service. Suppose the ettler has his farm—doesn't he want to come to St. Louis sometimes? On any week day he may take the morning train from Steelville for St. Louis at 9:40 (being a farmer this gives him time to do his chores) and arrive at Cuba, on the main line, at 10:40 (one hour to go eight miles.) Instead of making connection there and going right on, he must wait over at Cuba, where he may have no business, till 2:17 p. m. This brings him into the Union Station, St. Louis, at 6:15 p. m. He has wasted a whole day coming 95 miles. If the train from Steelville on a week day had started at 8:15, as it does on Sundays, he could have connected with the 9 a. m. train at Cuba and got to St. Louis at 11:30 a. m., giving him time to do business here and return the same day. It is only three hours' ride with good connection. During the winter, a St. Louis man owning land down there can go out in the morning, but cannot return at all Sunday evening, the theory of the railway being that Ozark folk don't want to use the trains at all on Sundays.

I have called attention to this poor service, but the Frisco replies that a good service on the Salem Branch does not pay. Wouldn't a connecting service be just as cheap as one in which the trains fail to connect?

STEELVILLE FARMER.

OPPORTUNITY.

GANGSTERS AGAINST CHARTER.

From the Mirror.

There's but one bad thing I can see about the fight over the charter. That is that behind those opponents of the measure who act from conviction there lurks the bigger opposition of the political gangsters of both the greater parties. "The boys" don't like the short ballot. They don't like the merit system of filling the minor offices. They don't like the lack of confirmatory power in the Council as to the Mayor's appointees. All these things mean that they will not "get the candy" as they have done in the past. The "boys" will lose their "pull" and can't charge for the exercise of it. The "boys" will vote—don't you forget it—against the charter. Many friends of the instrument will overlook that important duty—at least they have been in the habit of doing so. The solidarity of the bi-partisan "boys" is what is likely to defeat the charter.

ROSSINI'S FORTY YEARS' REST.

From Rowbotham's "Private Life of Great Composers."

In fact, with the composition of "William Tell" his career may be said to have come to an end. It was the first grand opera he had ever attempted, and it was destined to be the last. Though only 37 years of age and in the zenith of his popularity, he laid down his pen the day after the first performance of this work and resumed it no more, except to write the "Stabat Mater" and the "Messe Solennelle," although he lived to his seventy-ninth year. For 40 years he lay idle and reposed on his laurels, and he is one of the few instances of any celebrated man who has done so.

"One sucess more," he said to his friends, "would add nothing to my fame, and one failure might impair it. I have no need of the one, and I will not expose myself to the risk of the other."

England's First Christmas Trees.

From London Truth.

The return of Christmas brought to life the journalistic legend that Prince Albert "introduced Christmas trees into England" and that the first of them was set up at Windsor Castle in 1841. As a matter of fact, Christmas trees were introduced half a century before Prince Albert was born by Queen Charlotte, and they were set up every year for the royal children at Kew or at Windsor.

The Impassive Talleyrand.

Napoleon (Quoted in "The Corsican").

Talleyrand's face was so impassive that it is impossible to interpret it. Lannes and Murat used to say of him jokingly that if, while he was speaking with you, somebody kicked him from behind, his face would show nothing.

Good Evidence.

From Puck.

"Is he a stranger here in New York?"

"Must be. He knows every theater, lobster palace and gambling-joint in town."

JUST A MINUTE.

Written for the Post-Dispatch by Clark McAdams.

THE OZARKS.

What Prof. Moorehead had to tell us about the Ozarks last night was indeed very interesting. We have not appreciated the Ozarks. There, it seems, are the oldest traces of human life in America, and all that science which continually wrestles with the problem of our origin is looking that way for light.

"Think of it!" the professor said. "In the caves of the Ozarks are human bones covered with five feet of limestone deposited by water dripping from the ceiling. We found that drip to occur once in every 15 minutes when the weather is fair, and once in eight minutes during and immediately after a rain."

Now.

For the sake of computation, let us say that a drop of water dripping from the top of a cave carries in it about 1 per cent of lime. In 24 hours of the kind of weather they ordinarily have in the Ozarks one of these little ceiling springs would therefore deposit a quantity of lime about equal to a drop of water. In a year it would deposit approximately 365 such drops, and in a hundred years 36,500, which would probably cover the floor with a limeoleum, so to speak, having the thickness of a blotter.

Working that deposit up carefully to a thickness of five feet, we may have some notion of the antiquity of man in Missouri. Who wants to do it? We don't. We want to pass the charter and keep an eye on this mischievous world.

"There was some very odd life down in your Ozarks," the professor said.

And so there is now.

THE WILD AND WOOLLY EAST.

A New York man who is thinking of moving to Wyoming asks the Evening World:

"* * * Are there cowboys and Indians out there?"

New Yorkers spend so much of their time in the theaters that cowboys and Indians have become necessary to their existance. This man probably would not think of moving where there are none.

AROUNDABOUT.

A St. Louisan who is experienced in the more fashionable violations of the law which forbids the sale of game in Missouri makes this observation:

"We used to order prairie chicken and get guinea, but now, I observe, we order the guinea to get the chicken."

SO THERE!

A Missouri band engaged to make music when a fellow citizen returning from the Leavenworth prison should step from the train responded upon that delicate occasion with "Home, Sweet Home."

There has been some criticism of Missouri. What does the band play upon similar occasions in some of those other states?

"Did you enjoy the banquet?"

"From the cocktail to the cream de menthe."

THE COOK-FRANKLIN SCANDAL.

If the spirit of Sir John Franklin really did conduct Doctor Cook within a short distance of the North Pole and there set him adrift, as the spiritualists have it, it was a very mean thing for it to do. The Doctor is in great need of information, both for himself and for us, of what actually happened after that, and Sir John's desertion strikes us as being about as contemptible a thing as we ever heard of a spirit doing. The improbability that he was in any way affected in a spiritual state by either the severe cold or the uneven going renders him even the more worthy of our contempt.

The spirit of Sir John Franklin is a quitter, and we sincerely hope that it is not in good spiritual standing.

Bang! Goes the Bank.

Bank Commissioner Dolley reports that 30 banks have been robbed in Kansas in the last three months, at the rate of one every third day. A hundred thousand dollars has been taken and not one of the robbers has been caught. The robbers' system is so perfect as to place bank robbing among the less hazardous occupations. Attention is called to the fact that while the robbers have headquarters in Nebraska and Oklahoma, their operations are confined to Kansas.—Thomas (Ok.) Tribune.

Isn't the biographer of the seven outlaws presuming upon our credulity when he tells us in as many days that Jack Shepard and Claude Duval both danced a stately measure by the roadside with pretty ladies they had held up? We are all idealists, especially in road agents, but that second minuet would have fallen a little more credibly somewhat farther along in the list.

Two More Lost.

Clarence Kelbar and Fred Darby went below last Sunday.—Calaveras (Cal.) Prospect.

"Mc."

May I ask you, sir, what is your name?
He kindly answered: "Mc."
Incisive, keen, he gave his name; it almost threw me off the track.
Is that all the name you have, dear sir?
Pray tell me, sir, "Mc" what?
Is it McBride? Is it McGraw? Or is it Mister McElligott?

Pray tell me, sir, is it McCann, McCoole, or perhaps it is McDade?
'Tis neither of those names, my man;
Nor is it McCoy or McQuade.
Shall I address you as McClannahan?
Are you Mister McCue?
If you're a mick from the dear old sod, perchance it is McGlew?

He answered not, but eyed me fierce, and in a hot, scornful way,
Again I chanced the query to him thus:
"Well, is your name McClay?"
Why are you so persistent, sir? Why do you thus my patience rank?
My name it stands in the Hall of Fame, as "Sir McMackeral McMac."

J. C. S.—The inspector said that when the egg is fresh the shell is almost, if not entirely, filled. As an egg grows old the space increases, the egg drying more and more.

UNHAPPY WIFE.—We are not sure that we understand your matrimonial tangle. You had better keep quiet about it. Possibly no one will ever charge you with bigamy.

H. O. N.—Negroes in United States of voting age, 2,065,989; whites, 19,026,143. (New census figures are not out.) Estimated negro vote in St. Louis, 13,000; in Missouri, 40,000.

EMMA RIGHT.—A statement has been recently published that parcels-post packages are carried from the New York postoffice to German steamers by an Imperial German mail wagon.

SAILOR.—The matter must be decided by by-laws of the association and effect same would have; and if expelled it is reasonable to presume all rights and interest of member ceases. Read the by-laws.

SUBSCRIBER.—The football word soccer is a corruption of the word association, first applied to an English organization. People who have only read of football have mistaken soccer for a corruption of sockdolager.

J. A. P.—To protect an invention before patent is granted, file in the Patent Office a caveat setting forth the object and distinguishing characteristics of the invention and praying protection of right until invention is matured. Fee, $10.

ANXIOUS.—In your answer there was an error in punctuation. This is the correct reading: Their only recourse is to contest it. Under the joint deed aforesaid, even if husband should have left a will devising same to children, it would not hold.

L. R.—Wax and candle grease stain: Place a piece of blotting paper over the stain and press it with a hot iron, shifting the paper two or three times if the spot is large. The wax melts and is to a great extent absorbed by the paper.

ANXIOUS READER.—To remove spots or stains from silk without injuring the color, take five parts of common water and six parts of alum, well pounded. Boil them a short time, after which pour it into a vessel to cool. Previous to using the mixture must be made warm, then wash the stained parts and leave to dry.

ALLIE.—Claret punch: To six quart bottles of claret add juice of three dozen lemons and one dozen oranges, one bottle brandy, one bottle Maraschino cherries, one pint cordial, six quarts water. Add oranges and bananas, cut fine, in quantities to suit, also strawberries and the juice of any preserves or a can of preserved cherries. Pour over large pieces of ice and serve when cold.

READER.—Practice deep breathing. This has been given as a formula for bust (we do not guarantee it): One ounce each cocoa butter, cocoanut oil and lanolin; melt together and stir until cold. Each night bathe neck and bust in hot water until flesh is pink. Warm a little of the bust food and massage gently 15 minutes using rotary movement. Do not knead or pinch, for that will reduce flesh. In the morning bathe the bust with the hands, dipping them in very cold water. Rub briskly but gently with a coarse towel. Do this faithfully for a month.

CONSTANT.—Ginger wine: To one quart boiling water add the thinly pared yellow rind of two lemons and three ounces green ginger root peeled and grated. Boil gently one hour, then set aside until cold. Dissolve seven pounds granulated sugar in four quarts water; boil 30 minutes, skimming well; add 13 quarts more water; set aside until cold. Strain first mixture; add it to second with the juice of the two lemons and three pounds seeded raisins cut into halves. Turn into five gallon keg; cover bunghole with coarse muslin and let stand in moderately cool place until fermentation ceases. Bung up and keep two months before putting off that bottle and put away.

Have Women a Sense of Humor or—What?

Germans Are Discussing This Interesting Question and Their Replies Are Analyzed for the Post-Dispatch

By Ethel Lloyd Patterson.

HAVE women a sense of humor? A German newspaper, the Berlin Lokal Anzeiger, has asked the question and started the controversy. Many well-known men and women have contributed their opinions on the subject. Apparently, though, the point has not been decided to the satisfaction of anyone. The question remains:

"Have women a sense of humor?"

Does not the inquiry itself imply a subtle compliment? May we not gather from it that women are still complex, elusive, interesting? In short, men do not yet know whether women have a sense of humor. We continue to be the riddle as old as the Sphinx and more alluring.

On the other hand, who ever asked of men: "Have they this quality, or have they not?" We know—we men and women—the full gamut of man's temperamental possibilities. Men are a solved problem; a jigsaw puzzle with the picture complete.

In reply to the question raised by the German journal Jerome K. Jerome has written:

"My observations have shown me that women have just as sharp a sense of humor as men, but they have less understanding of the grotesque."

It is a fact that women are not quick to laugh at so-called humor which is founded on physical discomfort or pain. The old "slap-stick" methods of vaudeville seldom appeal to women. Few women see anything ludicrous in jerking a chair from beneath a person, or find anything particularly comical in a grotesque stage "make-up" which converts the actor into a misshapen creature. The enthusiastic allies of women will say this is because women are more tender and sympathetic than men. As a matter of fact, women probably do not laugh at the grotesque because they think more of physical comfort and comeliness than do men. For many centuries—until so lately we can remember, when the change came—the physical appearance of a woman was her chief asset and her chief weapon. Women have been forced to deify their physical selves. Consequently in any humor which has a reverse side of disrespect or harm to the body the instinct of the years shows women the tragedy to the utter destruction of the ludicrous.

Franz Lehar, composer of "The Merry Widow," says:

"Women have humor when they are among themselves and are making merry over us men."

Now, if Herr Lehar did but know it, the woman who laughs at all men merely because they are men, would marry the first one of them who asked her. The woman who is a man-hater, and the man who is a woman-hater are stupid, abnormal persons. And stupid persons do not have a sense of humor. Only disappointed wives and spinsters gather in circles to laugh at men as a sex. We venture then to question the famous composer's premises.

But why ask at all whether women have a sense of humor? Why should they not? Humor is scarcely a material quality. Surely it is a question of the individual. There seems no logical reason why men should possess more humor than women or women than men. One thing at least is certain: Unless two persons both possess a sense of humor they cannot live together happily as man and wife. For real humor is a kindly thing. It smoothes difficulties, helps us to regard indulgently the foibles of each other.

The strongest bond of comradeship is a shared laugh. When a woman laughs with her husband she loves him. When she can laugh AT him she has ceased to love him.

Julius Freund, a popular musical comedy librettist, says:

"The grotesqueness with which the modern woman bedecks herself from head to foot establishes beyond all doubt that she overflows with a sense of humor."

Now this comment, if we may be pardoned the vernacular, is a very old "wheeze" indeed. Probably Adam remarked to Eve that he could tell she had no sense of humor from the way she wore her fig leaves. Woman's style of overdressing or underdressing has been since the beginning of time proof positive to man that she did or did not, as the case might be, have a sense of humor. But if this were true and a sense of the ludicrous were unfailingly to manifest itself in clothes the average man would have "caniption fits" at the sight of himself in a full dress suit.

Rosa Bertens, leading lady of the Royal Theater, Berlin, tells us:

"If we women had not a sense of humor how could we tolerate the superiority of man?"

As a matter of fact, we might remind Frau Bertens that a self-respecting woman—with or without a sense of humor—does not tolerate the superiority of anybody. A self-respecting woman seldom has to do so.

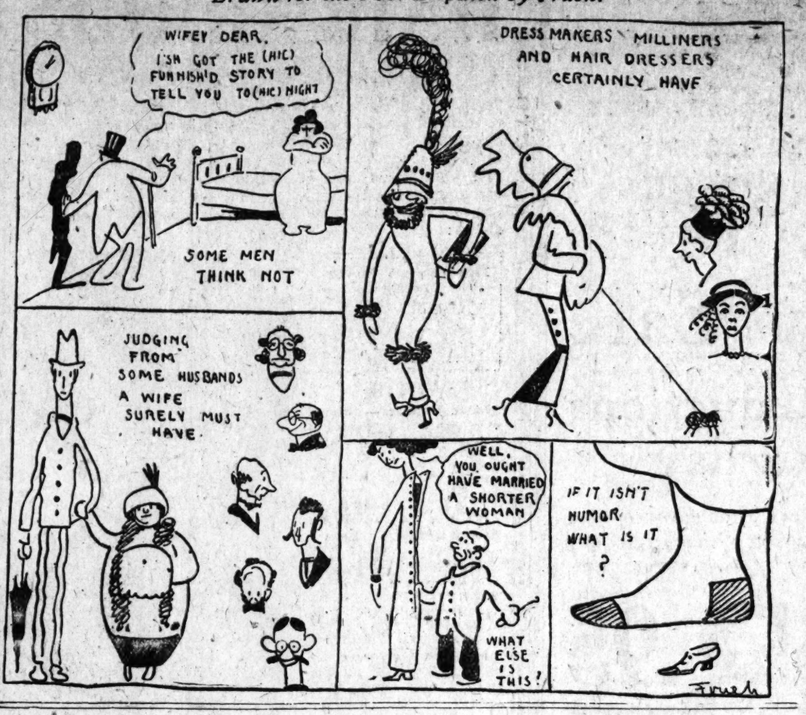

However, real humor is democratic. No one can laugh comfortably on a pedestal. But where does that lead us? For more men than women are permanently on a pedestal. Men may elevate women, as a sex, to a pedestal, but in the privacy of their own homes they are expected to come down and wash the dishes. But once let a man scramble up on a pedestal and the household gods are supposed to burn more incense than the rest of the world.

"Heaven gave man humor and woman patience," says Leo Leipziger, the German author.

To some of us the two qualities Mr. Leipziger has named may seem synonymous. One cannot well be patient without humor to help one endure. One cannot well have humor without feeling kindly patience and tolerence toward others.

But one point all these learned German people have overlooked. They have failed to establish what true humor may be. Persons who laugh much have not always a real sense of humor. A laugh does not always indicate a joke. A laugh may emanate from cruelty and hardness. A true sense of humor may manifest itself in little, kindly, humane acts. A sense of humor sees the weaknesses of others, but at the same time finds in them nothing ludicrous. The person who laughs at the mistakes or misfortunes of others, who twists their words or actions into caricature, may be witty, clever and even brilliant. But these are not the persons who possess the supreme gift of pure humor.

Its Finish.

"ISN'T your new gown finished yet?"

"O, gracious! no; the dressmaker's work on it was only completed last Saturday."

"But if the dressmaker's through, isn't that all?"

"Of course not! All my friends have to criticise it."—Catholic Times.

Mrs. Ward's Anti-Suffragettes.

IN this happy land all the brooks and crystal streams of revolution—and in this sense it is a land of streams—flow easily, for no one ever tries to dam them up; but it is by no means so in England. The consequence of this difference is that the woman suffrage movement, which here excites a pleasant curiosity, is there meeting with such opposition that the women have become angry and have been unwomanly enough to resort to violent methods as if they were men. Mrs. Humphrey Ward is the leader of the anti-suffragettes there and starts off with a very sophistical proposal, according to which women are to have a consultative power with liberty to write letters to the papers, deliver speeches, and organize meetings, while renouncing forever all claim to the actual vote. Mrs. Humphrey Ward holds the Arnold doctrine that her own class, the cultured upper English middle class, is the salt of the earth; and I call her proposal sophistical because, while pretending to make concession, it is simply an arrangement by which the ladies of her own classshall wield power, while the women of every other class who have not the leisure or the faculty to make speeches, etc., are left in their original weakness. She and her friends talk as if the vote were an expression of opinion, and therefore needing for its exercise all sorts of culture, including, I suppose, the latest fads and theories of these bewildered gentlemen, the social reformers and political economists. Whereas the vote is really a vehicle by which information may reach the politicians—information as to how the people interested feel about laws proposed or actually pressing upon them, the vote being not so much an intellectual thing as an expression of the moral and emotional sense of things. The poorer women—above all, the workingman's wife—abound in this great sense and know at first hand what the lady of culture knows at second hand or by intellectual guesswork. The workingman's wife is the providence of the husband and his family, their intellect and their conscience; and she, better than anybody else, better even than her husband, knows where the shoe pinches. Given accurate information, reaching Parliament through the vehicle of the vote, and honest intentions among the ministers, government is not nearly so difficult a matter as some cunning people would pretend.—J. B. Yeats, in Harper's Weekly.

He Stood Corrected.

A TEACHER in giving a lecture to the members of her junior hygienic class and cautioned them against eating anything hard, such as nuts, hard candy, etc. A small boy held up his hand.

"What is it, Sammie?" she inquired.

"Say, did you ever see any of these here candy jawbreakers?" he asked.

"Ye-es, I believe so," she hesitated wonderingly.

"Well, Willie, here," indicating another boy in the class, "stood right in front of Gregorie's store yesterday and at five of them right down."

"Ahh" corrected the teacher.

"Was it right? I was thinkin' it was only five."—The Delineator.

WITNESSES TELL OF BEING COACHED BY H. B. GARDNER

They Say Father of Boy Whose Auto Killed Man Told Them What to Testify To.

SUICIDE THE INFERENCE

Companions on Fatal Ride Say Victim Dodged About Until Machine Hit Him.

Two occupants of Leo Gardner's automobile when it killed Jesse B. Williams last April, at Fifteenth and Olive strees, testified, in depositions Wednesday afternoon in a $10,000 damage suit on account of the death, that Williams ran out in front of the machine, throwing up his hands and dodging about until it hit him. Their depositions made it apparent for the first time that the defense to the suit is to be that Williams killed himself.

The depositions were taken Wednesday afternoon before Special Commissioner Forest P. Tralles. The suit is brought by Jerome B. Williams, brother of Jesse, and administrator of his estate, by Attorney Lawrence McDaniel. The witnesses were George P. Bohn of 5087 Maple avenue and B. J. Schaefer of 3943 Olive street.

Coached by Gardner.

Bohn is under indictment for perjury on account of his grand jury testimony.

McDaniel asked where the party went after the accident.

"Leo drove out to Campbell's Forest Home," said Bohn, "and we talked over the story we should tell if we were arrested. We agreed that we would not admit that it was Gardner's car, and would say we had not been near Fifteenth and Olive streets."

On further questioning, Bohn said another meeting was held at the home of a man named Femmer in Hodiamont to talk over the story they were to tell, and later held five or six meetings at the Gardner home. He said Harry B. Gardner coached them on the version they were to give the grand jury. Harry B. Gardner is now under indictment for subornation of perjury on this account.

Horn Not Sounded.

Both young men testified that Gardner was driving the car about fifteen miles an hour after leaving the rathskeller of the American Hotel at midnight. Approaching Fifteenth street on Olive, Williams and two companions were seen on the northwest corner, they said.

Bohn, who was on the rear seat with George Cornelius, said that Williams ran out in front of the car and threw up his hands. After the car hit him and went on, Bohn stood up and looked back, he said.

McDaniel asked Bohn if his testimony was the same as that before the grand jury. He said it was not—that he testified before the grand jury, when it was investigating the death, that the automobile had not been east of King's highway the night of the death.

Harry B. Gardner and his wife, parents of Leo, are made defendants with him in the civil suit. Arthur N. Sager is their lawyer in this case, but in the criminal prosecution of the youth Jeptha D. Howe has been retained.

REVENUE OFFICIALS SEIZE 5000 LBS. OF OLEOMARGARINE

Arrest Henry A. Totsch After Breaking Open Two Doors at 3432 Bell Av.

In a raid on the Jersey Creamery at 3432 Bell avenue Wednesday night, revenue officers seized 5000 pounds of colored oleomargarine and arrested Henry A. Totsch, the proprietor. Totsch was found hiding behind the family wash in the attic. He had with him a tub half full of oleo in process of being colored. The officers say that he carried this tub from the basement when he saw them approaching the house.

To enter they had to force open an iron door and batter down a wooden one, after occupants of the house had extinguished the lights. Because of illness in the family Totsch was permitted to spend the night at home on his promise that he would surrender in the morning.

POSTOFFICE SUSPECT HELD

Philip Foster Believed to Have Robbed Cadet, Mo., Office.

Philip Foster, known also as Philip Fortune and as "Whitey," was brought to St. Louis Thursday by Deputy United States Marshal Mallory and placed in jail to await grand jury action on a charge that he robbed the Cadet (Mo.) postoffice Dec. 31 and stole $300 worth of stamps.

Foster was captured at Hot Springs, Ark., where he attracted attention by buying drinks with postage stamps. When his valise was searched several sheets of stamps bearing in their margin the identification mark of the Cadet postoffice were found.

FRED BRIEGLER DIES SUDDENLY

End Comes as He Sits Chatting With His Wife.

Fred Briegler of 1612 North Leffingwell avenue was sitting on the edge of the bed chatting with his wife Wednesday night when suddenly he lunged forward and fell dead upon the floor. Dr. John T. Soraghan of 1502 North Jefferson avenue stated death was due to heart disease. Briegler was 63 years old.

If 12,000 Physicians Diagnosed *Your* Case

AND if these 12,000 physicians advised the identical treatment—you would accept their prescription with implicit confidence. You would be positive that all these physicians could not possibly be in error and that such overwhelming unity of opinion must be *final*.

More than 12,000 physicians have given their written testimony to the remarkable value of Sanatogen in all nerve disorders; they have seen in their own practice how Sanatogen re-vitalizes exhausted bodies—how it infuses new vigor, new life, new strength into nervous systems weakened by disease, overwork or worry. The verdict of these 12,000 authorities is convincing beyond doubt—and is safe for you to act upon.

Yet these 12,000 physicians represent but a fraction of the total number who every day in every land prescribe Sanatogen for their patients.

The opinions reproduced herewith are from men of international fame and authority. Show them to your physician and make sure you start Sanatogen *at once*.

We have published an intensely interesting book by a prominent physician-author who convincingly drives home the fact that our present mode of living creates nervous disorders and then clearly explains the remedy. Also in this book are published many convincing letters to Sanatogen's merit by world-famous people. *Write today for a free copy.*

Sanatogen is sold in three sizes—$1.00—$1.90—$3.60

Prof. C. A. Ewald: Doctor honoris causa of John Hopkins University, Baltimore, writes from Berlin: "I am able to speak from my own observations made at the bedside of patients, and I can say that I have used Sanatogen in a great number of cases (that is, in those disturbances of metabolism which were mainly of a nervous or neurasthenic origin), and have obtained excellent results."

Prof. E. von Leyden, of Berlin, writes: "I have gladly and frequently prescribed Sanatogen in cases of delicate patients, in my clinical as well as my private practice and am extremely satisfied with the results."

Sir Charles Cameron, C.B., M.D.: "Sanatogen is a substance of highest nutritive value containing a large amount of phosphorus which can be easily absorbed. It is an excellent nerve food."

Prof. A. Eulenburg, of Berlin University, writes: "I can regard it as a most valuable and helpful remedy in the treatment of most nervous diseases, including those accompanied by malnutrition."

Prof. Albert Neisser writes: "The experiments that I have thus far made with Sanatogen, especially in cases of patients suffering from loss of appetite and neurasthenia, have been most satisfactory."

Prof. C. von Noorden, of Vienna University, writes: "Sanatogen is of especial value in the various forms of anaemia and general debility. It is an excellent albuminous preparation."

ROGER TO SET HIS TRAP FOR GOOD PITCHER

With Another Seasoned Twirler Added to Present Corps, Cardinals' Manager Would Be Well Pleased With Team.

MANAGER ROGER BRESNAHAN of the Cardinals would welcome a reliable pitcher. He would not object to adding a hard-hitting outfielder or two to his forces, but is far more eager to line up a seasoned pitcher than the fly chasers.

The success of the Cardinals this season will depend considerably on what the pitchers do. Roger probably has the youngest set of twirlers in the League. Should he be able to develop three winners from Steele, Golden, Hearn, Zmich, Hennis, Loudermilk et al. to help Sallee and Harmon, he would have a staff of twirlers that could be depended on for years to come. There's not a man in the bunch, save probably Sallee, who is older than 25 years.

Wants Good Windup Man.

But Roger would feel considerably safer if he owned a pitcher who has already made his mark in the League, but at the same time is not tottering. With so many young and inexperienced fellows on the squad, the Cardinal skipper knows that a veteran heaver could step into the fray at critical times and save a lot of trouble.

It was with this same object in view that Bresnahan induced President Robison to annex the veteran Victor Willis from the Pittsburg club during the 1909-1910 off-season. Roger believed Willis would be a good wind-up man, but found the veteran had aged more than he had expected.

So when Roger attends the National League schedule meeting in New York next month, his main object will be to buy, coax, beg, borrow or steal a pitcher from his colleagues.

No Deal With Cubs.

He gives the laugh to the story printed several weeks ago that a deal whereby the Cardinals were to get Pitchers McIntire, Richie and Pfeffer from the Cubs in exchange for Bob Harmon. "That would be a fine trade—for the Cubs" was Roger's way of commenting on such a proposition.

That Bresnahan is depending on his outfield to "come back" is evident from the fact that he has provided little competition for the Ellis-Oakes-Evans combination for this season. Abbott of the Newcastle (O. and P. League) team and McIver of the San Antonio (Texas League) team are the only fly-chasing recruits who will try to beat the regulars out of their jobs.

Oakes Sure to Show More.

It is generally believed that Oakes is a far better player than he showed last season. It is also rumored that he has promised Roger to show what a real ballplayer he is this season. So maybe that's the reason the manager isn't worried about his outer garden.

OUTFIELDER MURRAY OF GIANTS, DEMANDS AN INCREASE IN PAY

NEW YORK, Jan. 19.

OUTFIELDER JACK ("RED") MURRAY, formerly of the Cardinals, now of the Giants, is in town to talk business with Manager John J. McGraw. The light-haired gardener failed to get in touch with his boss yesterday, but succeeded in arranging a date for this afternoon. Murray has not yet signed a contract, but he says he is not a holdout—not exactly yet. Murray believes that whatever differences he has with the club will be adjusted in today's conference.

McGraw offered Murray an increase over last year's salary, but the left fielder thinks the boost a trifle, considering the brilliant manner in which he finished the season after a very poor start.

He admits, however, that he would not spurn any manager's offer to let him have two hard hitters for his outfield. But as that is hardly apt to happen, Roger will content himself with the fellows who performed there last season.

"I believe the outfield will be all right," said Roger to the Post-Dispatch. "I look for Oakes to show better than he did last season, while the other fellows will probably improve, now that they have had another season's experience.

Sallee a Regular Correspondent.

"The only player I have heard from this winter is Harry Sallee. I get a letter from him each week, and he tells me that he has been taking good care of himself. He has been spending most of his time hunting, he writes. From the tone of his missives, I believe he is sincere in his promise to be a good boy."

Roger has said more than once that he considers Sallee the greatest southpaw in the business when the slim fellow is right. So it is needless to say that the Cardinals' manager is pleased over the prospect of having the Logansport boy report in fine condition in March.

O'BRIEN TO SHOW TWO CHAMPIONS ON SAME NIGHT

Ad Wolgast and Abe Attell Fight Would-Be Titleholders at Philadelphia Club.

JEANETTE'S GAME OFFER

Negro Fighter Bets Johnson Can't Knock Him Out With Stomach Punch.

By ROBERT EDGREN.
A Special Correspondent of the Post-Dispatch.

NEW YORK, Jan. 19.—Jack O'Brien is developing more speed as a promoter than he ever showed when he was famous as the Philadelphia dancing master. No other promoter has had the nerve to put on two world's champions and in a third bout two boys who would pack a house as star attractions any time.

One might think that O'Brien's Philadelphia club would be satisfied with such a main event as Ad Wolgast and "Knockout" Brown. Surely these two would be worth the $3 to $10 admission. Wolgast is champion and "Knockout" Brown has leaped into the first rank of the lightweight class and achieved far more popularity than Wolgast himself. There is a big chance that "Knockout" Brown may finish Wolgast before the end of the sixth round. "Dumb Dan" Morgan pulled off a quiet coup when he slipped "Knockout" in ahead of Packey McFarland, Owen Moran and Tommy Murphy for a try at the lightweight title.

Then, for a semi-final, there are Abe Attell and Patsy Kline, who will furnish a nip and tuck fight. Kline is a very dangerous featherweight. Possibly another world's title may change hands in this bout, although it seems less likely than in the main event. Attell is still a very foxy artist in his line, and six rounds is a short route for him.

Praise for O'Brien.

But when Joe Coster and Tommy O'Toole are put in for the first bout, one is forced to accord Jack O'Brien a certain amount of respect. Coster and O'Toole fought a great battle in Philadelphia a few weeks ago, and will draw a crowd on their own account. The three bouts make up the greatest card that has ever been offered the fight fans in any club since McAuliffe, Dempsey, John L. Sullivan and Jim Corbett drew thousands to New Orleans from all over the world.

It will cost O'Brien about $12,000 to bill this attraction. But he has the finest and "most salubrious and commodious" clubhouse in the country. His receipts ought to come close to $20,000. Philadelphia bouts have occasionally drawn big money. Battling Nelson pulled down over $10,000 as his end when he fought Terry McGovern in the Quaker town.

Jeanette Shows Up Johnson.

JOE JEANETTE'S letters are of such rare occurrence that they are worth printing.

"Dear Mr. Edgren—For the first time since I have been boxing, I am writing you letter of protest. In reading your column I notice that Jack Johnson says he knocked me out. When Johnson told you that he told my seconds to yell 'Foul' he knew that he wasn't telling the truth. He struck me low in the second round of that fight and knocked me unconscious and I was carried from the ring in that condition to a police patrol, where I was taken to a hospital, and it was two hours before I recovered and the police wanted me to prefer charges against Johnson. Jack McGuigan will bear me out in this, as will the newspaper men of Philadelphia.

"I am prepared to put up one thousand $(1000) dollars as a wager that Johnson can't knock me out.

"We can go into any room and I give Johnson a chance to hit me in the stomach with or without gloves and will forfeit the money if he can knock me off my feet, let alone knock me out. This offer is good for a public or private trial, anywhere you suggest. I will stand before him and he can take a punch at my stomach, and it is understood that I must not try to block it or protect myself from the blow.

"Knowing your record for fair play, I feel sure that you will publish this answer to Johnson. I remain as ever, yours respectfully,

"JOE JEANETTE."

McFarland Best of All.

Packey McFarland did more than win a fight when he knocked Jack Goodman out night before last. He showed the world that he is a lightweight, and the best in his class. Although his agreement with Goodman demanded only 135 pounds at 6 o'clock, Packey weighed in at exactly 133½, only half a pound over the recognized lightweight limit. There's no doubt that he could easily have taken off half a pound more. McFarland can fight Wolgast at 133 pounds ringside, and if he fails to take the championship it will surprise every man who saw him in action Tuesday night.

And what a champion McFarland would be! He'd do no sidestepping, that's sure.

Dixon Draws With Conley.

KANSAS CITY, Mo., Jan. 19.—Frankie Conley of Kenosha, Wis., and Tommy Dixon of Memphis went 10 fast rounds to a draw here last night. Conley, who claims the bantam championship, had his opponent in a bad way several times and seemed due for a knockout victory. In the last two rounds, however, Dixon came back strong and managed to get an even verdict.

Clubs of Their Forefathers Good Enough for the Royal and Ancients

Progressive Ideas of American Golfers Shock Traditions of Scottish Game's Dictators—Innovations Not Wanted Abroad.

THE MALLET-HEADED PUTTER. THE "ROYAL AND ANCIENT" TYPE.

THAT breach between the United States Golf Association and the Royal and Ancients of St. Andrews, Scotland, caused by the edict of the dictators of the golf world against "mallet-headed" putters, is far from being closed. Although the meeting at Chicago last Saturday did not insist upon the enforcement of the Royal and Ancients new rule, many golfers, especially in the East, are strong for observance of anything emanating from the venerable Scotch organization.

The rule bars a lot of clubs that have been used many years, though it doubtless is aimed against only a few of the extreme type, notably the Schenectady putter.

One definition given of a "mallet-headed" putter is as follows:

"One that is wider from face to back than it is long from heel to toe."

But this definition is not comprehensive enough for many putters now tolerated approximate this shape without actually conforming to it.

Don't Like Novelties.

WHAT the Royal and Ancients are undoubtedly fighting against is the spirit of change with which this country attacks every sport that it takes up. The progressive disposition of Americans extends to their pastimes. Where the Britons are content to let the games of their forefathers remain as they were, the Americans insist on making those they adopt up to date.

The Royal and Ancients cling to the iron putter of their forbears. They do not want the center-shafted monster, or the mallet-headed pretender to dethrone the tools that were good enough for their ancestors, even though Americans think they have proven that the innovations are a lot better than the ancient and obsolete types that existed a century ago.

They have changed the ball already, in this hustling, bustling country. The old guttapercha sphere once sufficed; but the American manufacturers have found substitutes that could produce much better results, and now the market is clogged with a variety of balls, all better than the old one.

Innovations Sure to Survive.

AMERICANS, for the most part, think that the new clubs are sure to come, sooner or later. In any case, they can't see the sense in clinging to any instrument that can be improved upon.

The subject will come up again for discussion at the annual meeting of the Western Golf Association at Chicago Saturday. Whether the W. G. A. will line up with the United States Golf Association in its ignoring of the Royal and Ancients' ruling, or whether it will break with the national body on other issues, as threatened, will be decided then.

Mr. Arthur Birge of the Normandie Club, St. Louis, has been named a St. Louis delegate to the Chicago meeting. He has been instructed by his club to vote in every case against a breach with the national golf association.

However, it is not likely that the W. G. A. will disagree with the national organization on the subject of the St. Andrews ruling. The principal support of the Scotch tenets is found in the East.

WRAY'S COLUMN

THOSE new Browns!

Who will they be? Where will they come from? What shall be traded for them?

Mr. Hedges is more "willin'" than ever Barkis was, to acquire new talent; and Manager Rhody Wallace could also make a swap or two that might alter the complexion of the club slightly. But to get any prizes in baseball you first have to collect the trading stamps. And they are low in the exchequer.

It's not over a 2-to-1 bet that the "new" Browns will, from force of circumstances, appear somewhat as follows at least part of the season,

Murray, Schweitzer, Stone, ...Outfielders.
Newnam, Truesdale, Wallace, Hartzell, ...Infielders.
Stephens, Clarke, ...Catchers.
Nelson, George, Pelty, Powell, ...Pitchers.

* * *

Little to Sight.

THERE is scarcely any doubt that, until the time for dropping extra players comes, the Browns will hardly be able to pick up more than one or two new, capable men in trades. On May 1 all American League clubs are required by rule 40 drop from 40 to 25 men. It's true the rule isn't strictly observed at all, but about this time all clubs cut down their rosters to a certain extent. Some of the released men may be obtained by the Browns to advantage.

The only other way by which the Browns can immediately increase the playing strength of the club is to have Ban Johnson exert his good offices with owners, to the end that they will dispose to the Browns of some of the superfluous material they carry.

* * *

"You Shan't if I Can't."

THE law of self-preservation compels among magnates a sort of dog-in-the-manger policy. They may have several good players on the bench whom they are unable to use; but will they let them go? Not so you can see their footprints. "If we can't use them, you sha'nt," is the magnates' standpoint, feeling that it is a mistake on their part to strengthen a team that may some day be a real rival for the flag.

* * *

Ban Johnson alone seems to hold the touchstone that makes these "tight" ones loosen up. And sometimes even he can't do it. The Browns are in such a pitiful condition that even the grouchiest of magnates should take pity on them and cast a bone or two Wallace's way. But it will be a pretty well polished bone when it does come; bet on that.

In the great national game where Connie Mack is standing "pat" and Hughey Jennings needs only a card or two to fill, the Browns will have to be content with holding up an ace to draw to—Wallace himself.

And with eight in the game you know what the draw means. You have to take them from the discard.

Mr. Kinney to the Front.

SENATOR TOM KINNEY is using a velvet paw to start the racing ball rolling, at Jefferson city. In a wee, small voice he is sounding the depths of legislative opinion. He asks timidly for but a crust of the big loaf that the old racing syndicate once exacted as its right; and he steals so alluringly into the mind of his hearers that he is really likely to get a second hearing. Up in Kansas City they say he has actually got a chance to make a strong fight for the return of the game. But then, Kansas City sees everything rose-tinted.

* * *

If the sport is ever to be restored to Missouri, Kinney's suggestion is the one that should be adopted. Thirty days each year, no bookmakers, betting by pari-mutuel machines and a racing commission to govern all, are included in the plan of Mr. Kinney. It is modest enough to furnish the city with a little healthful excitement annually; it is enough to give the shopkeepers and the caterers a chance to smile; and will be honest enough to guarantee the public against "frame-ups," through the safeguards to be thrown around it.

Under such conditions racing could again attain the prestige it had in the days of President Rolla Wells, the Maffits, Greens and others of note in the city's annals.

But to get even a modest racing bill through the House is like trying to bombard a stone fort with eggs. And it's a cinch the eggs would make better chickens than ammunition.

* * *

Here's What We Need.

ANOTHER effort to revive a dead sport now being agitated in Jefferson City is evident in the bill introduced by Representative Paulus of St. Louis, who wants a modern boxing law on the statute books, in place of the obsolete one now in force. Mr. Paulus unfolds a plan that apparently is ideal, protecting the State from offensive contests, while promoting the legitimate features of the sport. His bill provides for six-round bouts, with six-ounce gloves—two ounces over the ordinary fighting glove's weight—and a physician to examine the boxers before each contest is begun, and to stop it if he sees fit. The floor and posts of the ring are to be padded to avoid accidents. The game is to be supervised by a boxing commissioner and deputies, the chief to draw a $2400 a year salary, annually, and to devote all his time to the subject. Clubs must pay a $500 license and penalties for violations rung up to $3000 fine or a jail sentence. Amateur bouts may be put on for a $5 fee.

* * *

Six-round bouts are unsatisfactory sort of affairs as FIGHTS; but as boxing matches they are suitable. However, any two gentlemen who mean business can get up a world of action in the 18 minutes of actual fighting provided for in the new bill.

Coming Champion Al Wasem to Get Second Hard Test

AL WASEM

WHETHER Al Wasem, the clever pupil of that great champion, Max Luttbeg, is in line to succeed his mentor as holder of the lightweight wrestling title may be made clearer after the bout which will be put on Jan. 29 at the Columbian Athletic Club. In this match Wasem will meet Billy Collins, one of the cleverest little men who has shown in the West in a long time. That the match will be hard fought is made certain by the articles of agreement which call for the winner to take all of the purse and stipulates a side bet of $100. This may be increased before the day of the contest as both men are confident of winning.

Off-Season Glints From the Diamond

It is about time that someone heard from Ban Johnson and Charlie Comiskey about the big fish they are landing in Florida waters.

Bill Abstein was the premier first sacker in the Eastern League last summer.

Manager Tenney of the Rustlers says that he will give himself a good tryout on the spring training trip to find out if he can play first base next season. If Fred Tenney fails to please Manager Tenney in the South Fred Tenney will have to be content with a job as manager only.

Dan Howley, a former semi-pro player of Boston and later a catcher for the Indianapolis club, will take two ball teams to Ireland next fall. Hub Hart and Jack Hayden are two players Howley has already signed up for the trip.

George Stallings, manager of the Buffalo team, hopes to be able to get Bud Sharpe, the Boston National first baseman, to play with the Bisons next season. Sharpe has been manager of the Stallings plantation at Haddocks, Ga., and has shown so much ability there that Stallings wants him on his ball team, too.

Patsy Flaherty is to have his sixth trial in the big league next summer. He has pitched for several of the big league teams and is to have his second chance with the Boston club next time out.

Bob Ganley, who was a big leaguer before going to the minors, has asked Joe McGinnity to give him another chance next season and has promised to cut out the "rough work," for which he has been famed for many seasons.

Jim Delahanty has sent out a strenuous kick about the way his name has been misspelled by so many scribes. It is not Delehanty, but there are two a's to the right spelling.

Hughey Jennings, manager of the Detroit Tigers, is at El Paso, with his bride, and he two witnessed a bull fight over on the Mexican side, as a little feature of their honeymoon tour. Hughey pronounced the sport great, but said it wasn't as exciting as a game of baseball and that he'd stick to the great American game. Jennings is going down into Mexico to look at some mining property he expects to buy.

Ed Barrow has so far selected only three of the necessary eight Eastern League umpires. The other five to be employed will be announced at the meeting in Baltimore Feb. 6.

Jeff Pfeffer, the Cub pitcher, who is wintering at Dorchester, Mass., is keeping in condition by playing golf.

Manager Fred Tenney of the Rustlers has signed a young giant pitcher who answers to the name of Joseph J. Callahan. The youngster, who is a product of Cushing Academy, is 6 feet 1 inch tall and weighs 185 pounds.

Not a few fans are asking how can a first baseman make a triple play unassisted. On August 18, 1902, First Baseman Harry O'Hagan of Rochester, against Jersey City, completed an unassisted triple play as follows: George Shoch was on second and Mick on first. Johnny Butler, in an attempt to bunt, hit a short infield fly. O'Hagan ran in and caught the ball a few inches from the ground. He then ran to first base and touched the bag and went on to second, which he reached before Shoch who was running to third, got back.

New York fans are wondering whether Hal Chase will be able to keep up his fine record at first base next year with all the cares of managing the team on his shoulders. All of the other player-managers have failed to play as well while handing down two jobs.

BENDER CLOSES HARD SCHEDULE FOR ST. LOUIS U.

Conference Teams Will Play Four Games Against Crack Grand Avenue Nine.

Plans for the banner baseball season in the history of St. Louis University were practically completed Thursday, when John Bender announced the completion of his 1911 schedule. Here are the dates, all of which are fixed with the exception of the local Missouri University contest:

March 30—Concordia Seminary (local).
April 1—Concordia Seminary.
April 8—Shurtleff College, at Alton.
April 15—Missouri S. M., at St. Louis.
April 22—Arkansas University, at St. Louis.
April 29—No game scheduled.
May 1—Missouri S. M., at Rolla.
May 2—Drury College, at Springfield.
May 3—Arkansas U., at Fayetteville.
May 4—Arkansas U., at Fayetteville.
May 5—Arkansas U., at Fayetteville.
May 6—Arkansas U., at Fayetteville.
May 13—Missouri University, at St. Louis.
May 17—Missouri University at Columbia.
May 18—Missouri University, at Columbia.
May 19—Kansas University, at St. Louis.
May 27—Japanese University team, at St. Louis.

This schedule will probably be preceded by games with local high school teams and possibly a series with Bresnahan's Cardinals. These will probably be free to the public, if played, as an agreement between Hedges and Robison provides that no home games where admission is charged be played by either local big league club before the spring series.

Bender says he will have a strong pitching staff. Tony Stadtherr, the big football tackle, will try for the team. He has had considerable experience as a twirler. John Burns, another big fellow, will also be out for slab honors. Kissel, last year's undergraduate twirler, Canty, a left-hander, and Kelley, a new man, will also join the squad.

Dockery and Kistner will share the catching. Capt. Hyland and Reilly are candidates for first base honors. Second base is open, as Billy Dean will probably pass up baseball this season. In a pinch Dockery can play the infield while Painter, another football man, says he expects to try for baseball. Al Eberle is almost sure of the shortstop's job. At third there is a big hole, caused by the graduation of Giblin last season.

Bender's outfield talent looks good. Included in the candidates are Haley, Ed Stadtherr, Higley, Schloemmer, Reilly, Canty, Arthur Zachritz, formerly of McKinley High, and John Maguire, last year with the undergraduate team.

Although baseball in most colleges is a losing sport, the St. Louis U. Athletic Board plans some nice games for the blue and white team. Games are probable with Missouri University, Kansas wants two contests here. Arkansas, Rolla and several are due to show.

According to Bender's plan the season will open against some of the local interscholastic teams. Shurtleff at Alton, April 8, is the first regularly scheduled game. The team goes to Kirksville to play the osteopaths April 21 and 22. In May the team will take a Southern tour. It will include Rolla at Rolla, Drury at Springfield and Arkansas at Fayetteville. Bender is also eager to arrange a series of games with the Keio University team of Japan when the Nippon outfit calls.

NOW CLEVELAND COMES OUT WITH A "WHITE MAN'S HOPE"

CLEVELAND, O., June 19.—Cleveland has a white "hope." The way he sizes up he has about as much of a chance as any of these other contenders, excepting, possibly, Carl Morris. Tommy Barrett, West Sider, is the boy who would uphold this city's dignity in the heavyweight division. He is only 18 years old, but he's mighty big for his age.

Here are his measurements: Height, 5 feet 10¾ inches; weight, 190; reach, 73½ inches; neck, 17¼ inches; biceps, 13; chest, expanded, 40; waist, 31; thigh, 23; forearm, 12½; wrist, 8½; calves, 10½.

Jimmy Dunn discovered Barrett. The latter often came around to see Dunn's stable work. Jimmy never paid much attention to him until a week ago, when he happened to be struck by the size of Barrett. He asked him if he wanted to learn to box and was greeted with an affirmative reply.

Barrett is employed as a welder at the Standard Welding Co. He comes from a family of big men. His father, F. Barrett, weighs 210 pounds. Jimmy Dunn says if ever he picked out a fighter he has one in Barrett. He has a fighting look, Jimmy says, and in two years, when he attains his full growth and strength, he ought to be good.

MILITIA ATHLETES AND ST. LOUIS U. MEET FEB. 22

Coach John Bender of St. Louis University, closed arrangements Thursday morning with Col. H. C. Dyer of the First Regiment, for the dual athletic meet which was under consideration by the athletic associations of the regiment and the university.

The event will be held in the regiment armory the night of Feb. 22. Dr. Jesse Robinson and Jim Lincoln will probably be asked to assist the regiment man in getting the team into shape for the contests.

A program of standard events is planned, with a relay race between the rival associations as an added feature. Relay teams from the four local high schools will also be asked to compete in a special event.

WESTERN TRACKS CUT LOOSE FROM GRAND CIRCUIT

Row Over Dates Cause Split in Harness World's Biggest Support.

COLUMBUS, O., Jan. 19.—A new trotting association has been formed and will be known as the Great Central Circuit. The new organization will include a majority of the Grand Circuit cities and a number from the Great Western Circuit.

The formation of the new circuit is the direct result of the conflict between Columbus and Lexington in regard to the dates awarded by the Grand Circuit stewards at their annual meeting. The dates allotted to Columbus dovetailed into those claimed by Lexington, and when the latter city refused to change, or on invitation to become a member of the big circuit, the local association decided to declare war on the parent body.

The dates as allotted under the new order of things agree in several instances with those announced by the Grand Circuit, but the majority have been changed. No attempt was made to get Buffalo, Readville, Hartford, Syracuse or Goshen into the new organization, but instead an invasion of the West has been made by the addition of Milwaukee and Joliet.

The new organization will offer $400,000 in purses according to the announcement made yesterday.

The Great Central dates have been announced as follows; Indianapolis, July 10 to 15; Grand Rapids, July 17 to 22; Kalamazoo, July 24 to 29; Detroit, July 31 to Aug. 5; Cleveland, Aug. 7 to 15; Columbus, Aug. 14 to 26; Joliet, Aug. 28 to Sept. 2; Indianapolis, Sept. 4 to 9; Milwaukee, Sept. 11 to 16; Detroit (fair), Sept. 18 to 23; Columbus, Sept. 25 to 30; Lexington, Oct. 3 to 14.

LACK OF GOOD SOUTHPAWS HURTS DETROIT'S CHANCES

Detroit is the one American League club that does not look to be well supplied with southpaw flingers, and left-handers are worth their weight in gold these days with so many left-handed batters in the American League. Detroit has no southpaws of prominence now, Killian being let out last season. Pernoll, who was expected to replace the veteran, failed to make good, and has been sent to the minors. Jennings has but three southpaws enlisted for this year and none was ever heard of in big league circles. Mitchell is one. He hails from the Red Cloud team of the Nebraska State League, where he won 14 and lost 13 games last year. He had good control, passing only 47 batters. He fanned 196 men. Cavet of Rock Island is another. He won 13 and lost 13 games, struck out 248 and issued 90 passes. The third is Peasley, a semi-pro., of whom not much can be expected his first year, at any rate.

TEXAS WANTS TO BECOME A SEPARATE A. A. U. DISTRICT

NEW YORK, Jan. 19.—It is announced at the headquarters of the Amateur Athletic Union that the organization is to have a new district, which in future will be known as the Texas Association, its territory to comprise the entire State of Texas. Two years ago there was not one athletic club in Texas, while now the State boasts of eleven organizations devoted to the interest of track and field sports.

The matter of granting membership to the Texas Association will be put to a mail vote of the board of governors of the Amateur Athletic Union as soon as J. D. Benedetto, secretary of the Southern Association gives his consent.

The principal reason given by the Texans for their own association is that they want their own records and their own championships. Two of the foremost sprinters of today hail from Texas—Ramadell of the University of Pennsylvania, holder of the English and American inter-collegiate sprint championship and the world's record of 12 seconds for 125 yards, and Gwyn Henry, the national 220-yard champion.

IRREPRESSIBLE MURPHY LIBS UP A JAP BASEBALL "STAR"

CHICAGO, Jan. 19.—Ito Suzimoto, a Japanese, wants to play ball with the Cubs. Ito made known his ambition in a letter to President Murphy yesterday asking permission to go South with the team next month. In his request, couched in the best of English, the Japanese athlete announced he knew baseball perfectly and merely asked a trial.

Murphy immediately forwarded the correspondence to Manager Chance at Glendora, Cal. Suzimoto is a small man, 21 years old, with considerable infield experience acquired in Honolulu and on semi-professional clubs around San Francisco, where he is now living.

President Murphy says he favors taking Ito to New Orleans for a tryout. If the deal goes through the Cubs can claim the distinction of breaking in the first Japanese in the history of the major leagues.

HIGH SCHOOL TEAMS WILL FORM NEW LOCAL LEAGUE

The formation of a High School League, composing Central, McKinley, Yeatman and Soldan, is expected, following the abandonment of the old Interscholastic League, at a meeting of representatives of all the members Wednesday. This action was taken as a result of the ruling of the Board of Education that no high school team would be permitted to play games outside of St. Louis.

Chase Likes Basket-ball Player.

Hal Chase thinks as well of Hamilton, the infielder of San Jose, Cal., who has been the property of the New York Highlanders for more than a year, but was too bashful to report last spring, that he says he will kidnap the youngster to bring him East with him, if he still continues to be shy.

M. A. C. TANK MEN EXPECT VICTORY

[illegible]elle Appears to Have All-[illegible]nd Championship at His Mercy.

A banquet will be tendered the athletes of the Missouri Athletic Club Thursday night by the Athletic Committee of the Cherry Diamond organization. The function will bring all of the athletes of the club together and the extensive plans for the coming busy season in all branches of sport in which the club is involved will be discussed.

The swimming squad of the club has been making rapid strides under the tutelage of Frank Sullivan, and from present indications the local paddlers will have an easy time administering a defeat to the New Illinois A. C. swimmers, who will show here on Jan. 28. Dick Frizelle, who looks to be the probable winner of the allround swimming title, will sure land the 50-yard race in time near the world's record.

Newman Out in Front.

In the contest for the allround track championships R. Newman has the lead after the first night's competition of three events held last Saturday night. Newman was allowed first in the standing broad jump, which was protested, giving him a total of 11 points. J. A. Watts, the former Barnes University star football player, is second with 6; Hans Wulff third with 5, Forline fourth with 4 and Kierner fifth with 2. Capt. Kiener tore a vein in his left leg in doing the hop, step and jump and will be out of competition for some time. The next meet will be held on Feb. 4. The basket ball team will play Roberts, Johnson & Rand Wednesday night in the club gym.

DISCIPLE OF WRAY TO COACH WISCONSIN VARSITY CREWS

MADISON, Wis., Jan. 19.—Harry Vail, of Georgetown, Canada, has been engaged as crew coach at the University of Wisconsin for the coming season. He will fill the place during the absence of E. R. Sweetland, who became ill soon after his election a month ago and was compelled to rest for several months. Vail for six years was an assistant coach at Harvard, and uses the Wray stroke, which will be substituted for the Ten Eyck stroke taught at Wisconsin for the last three years. For several years Vail coached the Arial Rowing Club at Baltimore.

Tips and Cues

Despite the fact that Alfredo De Oro said he planned to retire as a pool player, following his match with William Clearwater, the Cuban now says he will accept Tom Hueston's challenge to play for the world's title. De Oro defended the championship in the final block of the match with Clearwater, Wednesday night. He won the match, 600—403.

Thursday's schedule in the Scribes' billiard tournament at Peterson's follows: Knott vs. Lloyd, O'Connor vs. Perrin, Sheridan vs. Jenkins, Parker vs. Waller, Ellis vs. Waller and Murphy vs. Underwood.

Billy O'Connor lost two matches, Wednesday. Kessler walloped him the first time, 65—24. Then Coyle handed him a 65—21 defeat. Underwood also lost two games, Brasser and Doyle taking his measure. Doyle batted only .500 and Collins forfeited to Duffy.

Skiff and Mueller are paired for Thursday night's match in the State pool championship tournament at the Royal. In Wednesday's play, Butler won from Baker, 100—86.

Frank Keith wants to meet Bodie Arndt of Cincinnati in a special pool match. Frank Benson, Keith's "angel," is willing to wager $100 on his protege in a 600-ball match.

Simons plays Botto in the three-cushion tournament at the Rex Thursday, while Lamm is paired with Barron in the pool event. Hutchings defeated Nusholt at billiards, 40—33, while Warner won from Hasner at pool, 50—28.

Francis and Win cross cues in the innovation billiard event at Peterson's Thursday night. In Wednesday's play, Kline won from Bush, 110—100.

O'Donnell trimmed Cohen in the straight pool tournament at Whitson's, 75—66.

J. Shay plays Herner in the class A three-cushion tournament at the Koney-Byrne Hall Thursday, while B. Shay meets Martin in the class B event. Hughes defeated Drew, 30—22 in the class A division, while Dirhold tanned Bower 30—25 in the B event.

Young Jake Schaefer finally turned the tables on Oro Morningstar in their billiard exhibition matches at the Grand Wednesday. After four unsuccessful attempts, Schaefer defeated Morningstar, 200—165, in the afternoon and 200—155 in the evening.

Tennis Men Name Wrenn Leader.

CHICAGO, Jan. 19.—Election of officers for the coming year took place yesterday at the meeting of the Western Tennis Association. Everts C. Wrenn of Onwentsia was the choice for president, while Ward C. Burton was elected vice-president. Harry Waldner of Skokie was elected secretary and treasurer. The Board of Directors for the coming year will consist of Kawett H. Ricker Jr., Aztec; A. M. Ashcraft Jr., Kenwood; John C. Neely Jr., Onwentsia, and Victor Elting, Onwentsia.

COTTON EXPORTS AUGUST 1910 ARE VALUED AT $460,868,020

WASHINGTON, Jan. 19.—Representing the supply of cotton in the United States for the year ending Aug. 31 last, as being 12,188,021 bales, 20 per cent less than that of the previous year in its annual review of the cotton supply the Census Bureau says 52 per cent was exported.

The quantity of cotton consumed during the year was 4,798,953 bales, compared with 5,240,719 bales in 1909, a decrease of 441,766 bales or 8 per cent. The average weekly consumption of cotton in the United States in 1910 amounted to about 92,000 bales, compared with 108,000 in 1909, 87,000 in 1908 and 96,000 in 1907.

A significant feature of the report is the growth shown in manufacturing industry in the cotton-growing states since 1880.

There were in these states 32 years ago only 561,360 active spindles, which consumed 188,784 bales of cotton. In 1910 there were 10,801,494 active spindles, consuming 2,292,-333 bales of cotton.

The quantity of domestic raw cotton exported during the years ending Aug. 31, 1910, amounted to 6,339,028 running bales, valued at $460,868,020. Of this cotton 38 per cent went to the United Kingdom, 30 per cent to Germany, 15 per cent to France, these three countries taking about five-sixths of the total quantity exported.

According to the reports the total value of exported cotton goods of domestic manufacture for the year ending June 30, 1910, amounted to $33,398,672, whereas the import of manufactures into the United States during the same year amounted to $66,473,143 in value.

The industrial importance of American cotton is illustrated by the fact that not less than 9,000,000 persons are employed in its production and handling and in the industries for which it furnishes the raw material.

IRON OUTLOOK BETTER.

CLEVELAND, O., Jan. 19.—The Iron Trade Review today says:

"Orders for steel products which had been held up pending definite announcement regarding the attitude of the manufacturers concerning prices, are coming out, and consumers are specifying against running contracts for first-quarter shipment. As a result, the iron and steel market shows an improvement over a week ago and the outlook for the future is more promising. No particularly large orders have been placed and consumers are not buying very far ahead but the aggregate tonnage involved in recent bookings shows a moderate increase and many manufacturers believe that within the next 30 days buyers will be obliged to figure farther ahead in order to obtain delivery when the steel is needed, as a gain in bookings over shipments is reported in some lines. The trade generally expects a gradual improvement from now on.

"While the trade generally does not look for heavy buying on the part of transportation companies until after the controversy over the proposed advance in freight rates is adjusted, car builders and steel companies are pleased with developments of the week and expect some fairly large awards for freight cars in the near future. Orders have been placed by the Pennsylvania lines east and west of Pittsburg for a total of 1800 freight cars, of which 600 will be built by the Cambria Steel Co. and 480 by the Pressed Steel Car Co. Prices on all finished lines are firm.

"There is more activity in the pigiron market than for some months. In addition to scattered sales of various grades of iron, inquiries are coming from consumers who have accepted final shipments against contracts previously placed. Inquiries put out for the sole purpose of testing the market have developed the fact that sellers are not inclined to grant price concessions."

SELLING BETTER THAN BUYING IN WALL STREET

Stock Prices Close Slightly Lower After a Quiet Session.

NEW YORK, Jan. 19.

Stocks made a slow recovery in the late trading, and the best recovered most of the early decline. On the rally, however, selling was encountered and prices hesitated. There were no market developments of importance and the speculation took on a more professional air than in several days. The closing was irregular.

The stock market was weak at the noon hour, with prices lower on all active issues. The agitation for an extra session of Congress was not well received by the "street." Bonds were active and irregular.

Traders sold stocks at the opening of the speculation Thursday, and made prices irregular. There was still some pressure on the Steel issues. The rails were relatively firm.

London showed a steady range on Americans before the local opening, although changes were small. The general market in London is depressed, with pressure on the Copper stocks on poor trade reports.

Market news is mixed. Iron trade cheerful, but improvement in business is slight. The reduction in salary of the president of the U. S. Steel Corporation is regarded as preliminary to a reduction in wages all along the line, unless there is shortly a pronounced improvement in business conditions. Cotton men in New England voted Wednesday for a 25 per cent curtailment in output.

Money markets show continued ease, and it is evident that banking interests are helping the situation as much as possible, to facilitate bond issues. The money market, after March, will probably tell a different story, should an improvement in the business world stimulate an increased demand for funds.

DETAILED REPORTS OF DAY'S TRADING IN WALL STREET

NEW YORK, Jan. 19.—The stock market developed an irregular tone today on a moderate volume of business. American Smelting opened ½ off and sold down steadily to a decline of 1¼. Reading declined ⅝, and there were fractional losses in Amalgamated Copper, United States Steel, Northern Pacific, Chesapeake & Ohio, Union Pacific, St. Paul, Laclede Gas and Brooklyn Transit rose moderately.

Union Pacific and United States Steel were the weakest features of the active group, both selling materially below yesterday's close. The coalers were less affected, though exhibiting some weakness. Norfolk & Western and Pennsylvania were heavy. St. Paul, which was strong in contrast to the other railway issues, advancing a point, subsequently losing part of the gain. The metal shares were heavy.

Acting on the assumption that the recent material advances in a number of minor grade stocks were for the purpose of concealing heavy sales of the recognized market leaders, the room turned bearish today and made a vigorous attack on the standard stocks. An early demonstration of strength in the grain carriers and coalers did not suffice to hold the market, and there was a subsequent material recession all around, in which Union Pacific, Reading, Canadian Pacific, New York Central, Norfolk & Western, the copper stocks and Minneapolis, St. Paul & Sault Ste. Marie sold 1 to 1¼ below yesterday's final prices.

The bond market was irregular, with a notable contraction in the dealings.

The selling movement eased during the midday hour and the market hardened a trifle. Trading became dull on the recovery.

The abandonment of the active speculative movement of sluggishness, with fluctuations state of sclugkishness, with fluctuations trivial. Prices ruled just about midway between yesterday's closing and the low figures of this morning.

The market closed strong. Prices made good headway upward in the final hour, with United States Steel, St. Paul and other issues selling at the best of the day. There was a large advance also in Laclede Gas, American Can preferred and North American, the last named rising nearly 5 points.

Barely steady.

NEW YORK, Jan. 19.—The cotton market opened steady at unchanged prices to a decline of 4 points, and active positions sold 3 to 4 points lower right after the call under scattering liquidation, inspired by somewhat disappointing cables and reports that New England spinners favored a curtailment of 25 per cent until business improved. The same large spot interest whose buying of the near months was the feature yesterday, gave the market support again on the setback this morning; Southern advices continued bullish as to the spot situation, and, while more or less unsettled in tone, the market steadied up to practically the closing figures of last night before the end of the first hour.

Cotton—Spot closed quiet; middling uplands, 14.90c; middling gulf, 15.15c. Sales, 700 bales.

Offerings became heavier above 15c for May and July and prices easied off to a net loss of about 4@6 points during the late forenoon, but the selling was not aggressive in department and by midday the market was steady at a rally of 2 or 3 points from the lowest. The closing was irregular.

Spot quiet; middling uplands, 14.90c nominal.

Estimated receipts of cotton in the ports today, 26,000 bales, against 29,351 last week and 19,800 last year. For the week, 225,000 bales, against 258,089 last week and 185,428 last year. Today's receipt in New Orleans, 5954 bales, against 5829 last year.

Liverpool, Jan. 19.—Closing: Cotton, spot, good business done, prices 5 points higher; American middling fair, 8.52d; good middling, 8.18d; middling, 8.06d; low middling, 7.86d; good ordinary, 7.60d; ordinary, 7.35d. The sales of the day were 10,000 bales, of which 500 were for speculation and export and included 9400 American. Receipts, 32,000 bales, including 31,900 American.

Reports of an early consolidation of the independent telephone companies caused a violent upturn in the interested securities on the local Stock Exchange Thursday.

Kansas City Home Telephone stock went up in leaps and bounds to $109, then on to $112. Kinloch stock sold at $105. Both issues were in strong demand at the top figures.

The demand in the general list was also good, United Railways preferred selling at ½ point higher at $38, and this figure bid. National Bank of Commerce brought $212, and National Candy common rose to $20.

The bond market showed a steady range on all the active issues, with strength in telephone bonds.

LONDON STOCKS STEADY.

LONDON, Jan. 19.—American securities opened steady today. The market was supported during the early trading and prices ruled from ¼ to ¾ above parity. Later prices moved irregularly in the absence of a decided lead from Wall street and the closing was easy.

Sheriff Speaks on 'Change.

Chas. H. Sherrill, United States Minister to Argentina, addressed members of the Merchants' Exchange Thursday. Sherrill gave much statistical information showing the rapid growth and development of the Argentine. He pointed out the importance of the United States cultivating the Argentine trade, especially as a grain producing country. Sherrill will speak at a meeting of the Commercial Club this evening.

NEW THEATER FOUNDERS GIVE MEDAL TO MISS TERRY

NEW YORK, Jan. 19.—In recognition of distinguished services to dramatic art a gold medal was presented to Miss Ellen Terry, the English actress today by the founders of the New Theater.

The presentation was made at the New Theater before a notable assemblage of men of letters, playwrights, musicians and the flower of stageland.

To Miss Terry falls the dual distinction of being the first woman and the first British subject so honored. The only other medal presented by the founders was bestowed on Dr. Horace Howard Furness, the author.

Fifteen hundred invitations had been sent out by the founders. Prior to the presentation a special performance of Maeterlinck's "Sister Beatrice" was given.

HOGS—The market opened on a good active strong basis, but in a short time it took a turn downward and after the first two hours the market was on a dime lower basis and draggy. Early one loan of good, heavy hogs topped the market at $8.25, which is the top for the week so far. Bulk of the hogs sold from $8@8.15. Packers were strongly in favor of lower prices from the start and what hogs sold early went to the butchers and shippers, but the butchers and shippers were not as good buyers later in the day. Pigs and lights sold well if good early, but slow later. Packers secured most of their hogs at $7.95@8.10, while the butchers and shippers pair $8.12½@8.25 for the good, medium and heavy hogs that they purchased. Pigs and lights that were good brought $7.85@8.10 and others $6.50@7.60.

WEATHER AGAIN A FACTOR IN GRAIN MARKETS

Wheat Drifts Off on Rain in Southwest—Corn Also Lower.

Wheat drifted off today in the face of light support and a poor speculative inquiry. Trade was professional at all times. The pit element made the market.

Cables favored the sellers from the start, and Liverpool prices were lower on reports of heavy and beneficial snow over the Russian wheat belt. Buenos Ayres markets were weak and estimators on Argentine shipments of 680,000 bu well above last week's outgo. A reliable report placed the Argentine wheat exportable surplus at 100,000,000 bu.

Over the domestic winter wheat belt conditions were improved and general rain was reported in Oklahoma and Texas, with predictions of further moisture in the Southwest. The dry weather scare at the moment is losing some of its force. The Price Current's weekly report indicated that so far the actual damage has been small.

The movement to market continues to favor the buyers, but that is natural at this season of the year, especially following a year of such heavy early marketing. Minneapolis today received 369 wheat cars, against 191 last week and 365 last year. Duluth had 37, against 26 last week and 73 last year. Winnipeg had 84, against 150 last year.

Liverpool spot wheat closed unchanged to ½d up, futures, ¼@⅜d lower. Spot corn, unchanged to ¼d lower; futures, ¼@½d lower. Paris wheat closed ⅜@1¼c lower; flour, ⅜@1c lower; Antwerp wheat, unchanged; Berlin, ½c lower; Budapest, ¼c up.

Chicago wheat receipts today, 19,200 bu, against 21,600 bu last year; shipments, 57,700 bu, against 52,282 bu last year.

Kansas City wheat receipts today, 42,000 bu, against 100,000 bu last year; shipments, 58,800 bu, against 68,650 bu last year.

Local wheat receipts today, 76,935 bu, or 460 sacks, 58 cars local, 11 through; last year, 80,000 bu or 76 cars local, 4 through.

Local corn receipts today, 92,400 bu, or 68 cars local, 9 through; last year, 15,400 bu, or 131 cars local, 9 through.

Local oats receipts today, 83,300 bu, or 36 cars local, 13 through; last year, 110,400 bu, or 28 cars local, 41 through.

Total primary wheat reecipts today, 664,743 bu, against 777,787 bu last year; shipments, 258,345 bu, against 310,632 bu last year.

Corn was under pressure from the start on increased speculative offers. Cables were lower and rain was reported over the drouth section in Argentine. Receipts show a tendency to increase on all the advances. Oats were quiet and easy.

The Price Current says:—General conditions wheat in Ohio, Indiana and parts of Illinois regarded in fine shape and shows signs of much vitality since snow passed off. Western and Southern parts of Central Region, some apprehension of damage from sleet, but not general and whole outlook same as week ago"—

"The Northwestern Miller says:—"The flour output last week increased 38,965 bbls. The output for the week ending Jan. 14th, was 325,735 bbls; against 333,165 in 1910. This week, one less mill is in operation, and the prospect is for an output approximating 300,000 bbls. Minneapolis and outside mills found flour demand very light last week. Buyers are indifferent to price arguments. They claim that values are above a legitimate basis and trading is of a hand-to-mouth character. Sales were scattered, and even smaller than in the preceding week, while mills generally say they would rather have shipping directions at present than new business. Directions are very slow in coming in and are out of all proportion to the quantity of flour on books. Domestic inquiry for first clear flour is only fair.

Indian wheat shipments for the week were 552,000 bu, against 1,024,000 bu last year.

Clearances of wheat and flour were 252,000 bu, of corn, 805,000 bu; of oats, none.

Cash wheat steady with offers about yesterday's closing; offerings small.

Cash corn easy to ½c lower and quiet.

Cash oats ¼c lower, with demand only fair.

ST. LOUIS MONEY MARKET.

All low interest quotations for the past three years have been broken in St. Louis this week. A number of long-term loans have been made as low as 4 per cent, and some of the leading names are said to be getting founds, at as low a figure as 3½ per cent in the East. One large bank has been buying heavily of all attractive 4 per cent paper offered, and which falls due as late as August, 1911. The banks seem to be competing more actively for good paper than has been evident in many months. Some of the trust companies claim to be putting out money on a better basis in the shape of outside loans.

Three at $100.00.
Ten at $75.00.
Ten at $50.00.

and all correct solutions will receive a draft for $25.00.

The piano manufacturers and dealers have for many years tried to reduce the selling expense of musical instruments. The old ways of selling pianos, pulling door bells, canvassing, paying music teachers commissions, etc., have all been eliminated and it is now a question of the advertised piano. The maker's name being familiar to the piano purchaser, and the piano purchaser knowing the true value of the piano, makes it possible to sell a certain number. A [illegible] contest has been planned to make our pianos well known in this vicinity, and the manufacturers have agreed to assist us in conducting [illegible]

We, and the manufacturers whom we represent, want you to know that all answers will be considered; first, as to the correct answer, and second, as to the neatness of the answer mailed. In addition to the above rewards we will give each correct answer a cash value reward, which will come direct from the manufacturers, and will be good only on any new piano we are advertising.

We want to especially assure you that you should not lose a minute in mailing your answer to our store. Try for one of these prizes, which will be given free to successful contestants.

We are exclusive representatives for the Sohmer, the Gabler, Smith & Barnes and Willard Pianos and the Farrand Cecilian Player Pianos.

DEMOCRAT WILL NOT AID HOUSE TO OUST REPUBLICAN

Representative Hawkins Demands That Evidence Be Printed Before Voting.

HOME RULE BILL OFFERED

Measure Is Drawn in Accordance With Gov. Hadley's Ideas on Subject.

From a Staff Correspondent of the Post-Dispatch.

JEFFERSON CITY, Jan. 19.—Charges of attempted unfair treatment by the Democratic majority in the Election Committee of the House in attempting to railroad through a report unseating a Republican member from Pettis County was made by a Democratic member on the floor of the House today.

Representative Hawkins, one of the older Democratic members in point of service, bolted from the Democratic side and demanded that the Republican contention for time to investigate the action of the committee be supported.

Representative Taylor of Chariton County demanded that Hawkins take his seat among the Republicans, and Hawkins retaliated by challenging Taylor to meet him outside the legislative hall at adjournment.

Hawkin's position was supported by Vernon of Laclede, one of the new members.

Demands a Fair Deal.

"I am not to be gagged," declared Hawkins. "I am going to be fair, and this committee is trying to conceal from the House the evidence. "I want the evidence taken in this Pettis County contest to be printed so we can see what it is.

"I have been called a bolter. I always vote the Democratic ticket, but I want to know what this evidence is. If the committee is fair, it cannot object to this House knowing what the evidence was on which it reached its decision."

The committee reported in favor of unseating Harvey R. Dow, who was elected in the face of the returns by one vote. The report seated D. J. Seaton Tyler. The Republican members of the committee made a minority report.

After a two-hour argument the majority report seating Dr. Tyler was adopted by a party vote of 78 to 56. Both Hawkins and Vernon were brought into line for the report before the vote was taken.

Home rule police and excise bills for St. Louis and Kansas City were introduced in the House today by Representative Hiram Lloyd, the minority leader.

The bills provide for one excise commissioner and one police commissioner, to be appointed by the Mayor. The bills were considered by the Legislature two years ago but failed of passage.

The bills have the approval of Gov. Hadley, having been drawn by a committee chosen by him to frame home rule bills.

Would Limit Cold Storage.

Representative Erman of St. Louis tackled the high cost of living problem today with a bill to prohibit the keeping of food stuffs in cold storage for a greater length of time than 120 days. Refrigerator companies are required by the bill to register the date on which a consignment is received for storage. The penalty for violating the provisions of the bill is a fine of from $100 to $500 or imprisonment for not more than one year.

Universal Transfers Demanded.

A bill to require the United Railways to issue universal transfers was introduced today by Senator Brogan. The bill was prepared by the North St. Louis Business Men's Association. It provides that as many transfers as may be required by a passenger to reach his destination shall be given for one fare. The bill applies only to St. Louis.

Ice Breaks, Drowning 2 Young Men.

KEWANEE, Ill., Jan. 19.—While Jesse Bradley and John Brocker of Wyanet were walking across Hennepin Canal, east of here, Sunday, the ice broke and both young men were drowned. Their parents thought the boys had gone to Peoria, and their death was not known until last night, when the bodies were discovered.
